MEXICAN TRAIN MASSACRE BANDITS MURDER PASSENGERS, INCLUDING AMERICAN, AND ESCAPE ON ENGINE WITH \$150,000

(BY CABLE AND ASSOCIATED PRESS)
MEXICO CITY, Jan. 10.—A passenger train, attacked by bandits between Guadalajara and Mexico City, a majority of the passengers murdered and most of the military escort killed, is the alarming report received here from Guadalajara in special dispatches.

Between the stations of Negrete and Yuracuario, twenty men, armed and disguised, who had boarded the train at Guadalajara, suddenly began killing the soldiers and robbing and killing the passengers. Of the military escort, all but seven were killed and those were seriously wounded. The train, the dispatches say, was burned with the victims. The bandits, who were under the orders of the former Col. Manuel Nunez, then made their escape on the engine, carrying away \$150,000 in plunder. Telegraph communications were cut and details of the attack are lacking. Ferrel, military commander of the State of Jalisco, has ordered Gen. Torres to pursue the bandits.

AMERICAN AMONG DEAD IN ATTACK ON TRAIN

(BY CABLE-EXCLUSIVE DISPATCH)
MEXICO CITY, Jan. 10.—Robert Crussell, an American, was slain by a band of Mexican rebels which captured and burned the Guadalajara-Mexico City train near Labacra last night. The insurgents, led by Col. Manuel Nunez, who was commander of the garrison at Guadalajara during the De La Huerta revolt, killed the military guard, at least seven other passengers besides the American, wounded many others and looted the train. Money and bar silver worth more than \$150,000 were taken from the safes in the baggage cars. After dynamiting the safes the bandits drove all wounded and unlooted passengers from the cars and burned the train. The bodies of the slain soldiers and some of the passengers were burned, according to the latest dispatches. Heavy detachments of Federal troops, Gen. Barrios, Top, head of the troops stationed at Yuracuario, have been ordered in pursuit of the rebels. The rebels escaped on the engine and tender after cutting the telegraph wires.

JAZZ THRILLS FOR CHURCH

New York Minister Advocates Popular Syncopation to Exalt Spirits of Worshipers

(BY A. P. NIGHT WIRE)
NEW YORK, Jan. 10.—The church should take a lesson from jazz, and supplant its "high-priced quartet singing over the heads of their congregations" with music that "thrills and rests the weary," Rev. Christian F. Reiner of Chelsea Methodist Episcopal Church told his congregation today. Although saying that jazz "tends to unseat reason and set passion free," he asserted the church also could utilize it to "exalt the spirits of thousands until fellowship with God will be easy and rubber-tired." "Jazz does thrill," he said, "and it brings a prompt reaction that relieves strained tensions." He commented upon the "strange coincidence" that the son of Otto H. Kahn, chairman of the Metropolitan Opera Company, should be conducting a jazz orchestra and that the daughter of Clarence Mackay, whose munificent contributions make the glorious music of the Philharmonic Orchestra

COOLIDGE ADVANCES NEW COLORADO RIVER PLAN

Construction of All-American Canal by Government Not Included; Huge Bond Issue Called for

(BY KYLE D. PALMER
Times Staff Correspondent
[EXCLUSIVE DISPATCH])
WASHINGTON, Jan. 10.—Talking the great Colorado River project from the realm of personal politics and sectional jealousies and offering a river development program based on engineering estimates and economic demands, the Coolidge administration will submit proposals to Congress within the next two or three days which may sweep away the major obstacles to an early solution of the river problem.

COLD SPELL IN NORTH AT LOW MARK

All Records for Duration Broken by Wave; Rain Only Chance of Relief

(BY A. P. NIGHT WIRE)
SAN FRANCISCO, Jan. 10.—Breaking all records for duration, the cold wave which has held Northern California in its grip for more than a week, dropped the mercury to its lowest level for the cold spell today. The lowest temperature in San Francisco today was 34 deg., while in Weed the mercury dropped to 18 deg., and at Redding, 10 deg. In Sacramento and the lower portions of the valley region, the present spell began nineteen days ago. Forecasters stated that no relief can be expected until there is another rainfall and the outlook for that is not promising. They also pointed out that a serious condition has already arisen in the snowfall. Latest reports stated that the summit is practically barren of snow and the usual amount at this time of the year is seventy-six inches. A possible break in the cold wave was seen for the middle of this week by the Weather Bureau, but forecasters were unable to say if rain was expected as well. Low temperatures from other stations were reported as follows: Red Bluff, 28 deg.; Sacramento, 32; Fresno, 31; San Jose, 32, and Dunsmuir, 32.

SAWS MOSUL ISSUE STILL UNSETTLED

Tewfik Rushdi Bey Denies Sovereignty Modified, in Address to Assembly

(BY CABLE AND ASSOCIATED PRESS)
ANGORA (Turkey) Jan. 10.—Tewfik Rushdi Bey, the Foreign Minister who was head of the Turkish delegation at Geneva, gave his long-promised explanations on Mosul to the National Assembly today, and in doing so declared, "Turkish sovereignty over Mosul has not been modified in the slightest." This statement confirmed the impression that if the present Anglo-Turkish negotiations terminate unsatisfactorily to Turkey she will consider Mosul her Alsace-Lorraine, to be returned to the fatherland eventually. Kamal Pasha, the President, the entire Cabinet and the members of the war council were present in the Chamber of Deputies, listening to Rushdi Bey's description of the Mosul discussions. The Minister complained of the absence of the arbitration spirit at The Hague and Geneva, owing to anti-Turkish prejudice. "Turkey considers the Mosul question still unsettled," he said. "The present negotiations with England have not yet crystallized. We wish to reach an agreement concerning a frontier acceptable to both countries. Such an endeavor would constitute a basis for further negotiations."

TEXAS OIL COMPANY IN DENVER CONTROL

(BY A. P. NIGHT WIRE)
WICHITA FALLS, Jan. 10.—A controlling interest in the Texas Oil and Refining Company, one of the largest independent companies in the oil business, has been acquired by the Continental Oil Company of Denver, Colo. The consideration involves a capitalization of \$4,000,000 with the transactions made on a basis of \$125 paid on each dollar of paid-in capital.

BANK BOOKS INDICATE DEAD MAN WEALTHY

(BY A. P. NIGHT WIRE)
GLOBE (Ariz.) Jan. 10.—Daniel O'Brien, who died in a shack on the outskirts of Globe, Wednesday, apparently was a wealthy man. This was discovered today when investigators found three bank books in his clothing indicating that he had \$85,000 in California and Arizona banks. A will names a brother, W. S. O'Brien, and several relatives as beneficiaries. The new plan will announce.

DURANT SHAKEN IN WRECK

Fireman and Two Negro Attendants on Auto Man's Car Killed in Train Collision

(BY A. P. NIGHT WIRE)
ST. AUGUSTINE (Fla.) Jan. 10.—W. C. Durant, automobile manufacturer, was slightly injured in a train crash at Frontenac, Fla., early today when a trainman and two negro attendants on Mr. Durant's private car were killed. The crash occurred when train No. 86 of the Florida East Coast Railway collided with train No. 34 on a curve. Both trains were going north. The fireman of No. 34 jumped from the engine when he saw the crash was inevitable and was killed instantly. Mr. Durant's car, the Patriot, was on the rear end of train No. 34 bound from Palm Beach to New York City. The railroad company supplied a special train on which the automobile manufacturer was rushed to New York City. With him at the time of the accident were his wife, Mr. Durant's car, the Patriot, and several friends. BROOKHART LOSES OUT

Stock Winner on Recount

Investigation Gives Setback to Rumored Confirmation of Iowa Insurgent

Continued Report of Senate Committee Expected to Satisfy Democrats

(EXCLUSIVE DISPATCH)
WASHINGTON, Jan. 10.—Smith Brookhart may lose his seat as Republican member of the Senate from Iowa in spite of the fact that he has been declared the winner of the election held in November, 1924. It is now expected that the Senate committee will report recommending the election of Brookhart to the Senate in December, 1925, to fill the term of the late Senator Charles McNary, who died in November, 1924. It is now expected that the Senate committee will report recommending the election of Brookhart to the Senate in December, 1925, to fill the term of the late Senator Charles McNary, who died in November, 1924. MISS KELLER TO BE GUEST OF COOLIDGE

Woman Famed for Victory Over Handicaps to Spend Hour With President

(EXCLUSIVE DISPATCH)
WASHINGTON, Jan. 10.—Helen Keller, the famous deaf, dumb and blind woman, will call on President Coolidge by appointment tomorrow and expects to listen to what he has to say by the lip-reading method of placing her fingers on the President's lips. Miss Keller came to Washington today accompanied by her teacher, Mrs. Anne Sullivan Macy. She is touring the country in an endeavor to raise \$2,000,000 for the American Foundation for the Blind, of which President Coolidge is honorary president.

MILITONNAIRE NEWSBOY

(EXCLUSIVE DISPATCH)
PHOENIX, Jan. 10.—Cyrus H. K. Curtis, head of the Curtis Publishing Company of Philadelphia, was today named as a newsboy for the war days. The subject came up through some reference to the use of the term "militaristic" in the war days. The subject came up through some reference to the use of the term "militaristic" in the war days.

TOO LITTLE MILITARISM

He drifted into a discussion of the oft-repeated charges that Germany was "militaristic" in the war days. The subject came up through some reference to the use of the term "militaristic" in the war days.

NEWS HELD SUPPRESSED BY BRITONS

China Press Lays Charge Against Reuters Agency of Anti-American Policy

(BY CABLE-EXCLUSIVE DISPATCH)
SHANGHAI, Jan. 10.—Considerable stir has been caused by an editorial in the China Press, an American paper here, charging Reuters, a British news service, with the suppression of news references to the Chinese policy in reports on addresses of President Coolidge to Congress and Secretary of State Kellogg's recent New York speech on the American policy. The editorial points out that Reuters enjoys monopoly in supplying foreign news to the Chinese press and for a considerable period has deliberately been suppressing news of the views of the American policy with regard to China.

Yale Graduates of '89 Adopt Chauncey Depew

(BY A. P. NIGHT WIRE)
NEW YORK, Jan. 10.—Chauncey M. Depew, 91 years of age, and one of the two survivors of the class of '89 at Yale, thanked the class of '89 in a letter last night for "renewing his youth and taking thirty-three years off his age" by adopting him.

Mercier Shows Slight Gain as King Visits Him

(BY CABLE AND ASSOCIATED PRESS)
BRUSSELS, Jan. 10.—King Albert today visited Cardinal Mercier and conversed with him for some time. The Cardinal is recovering from a long illness and is now able to receive visitors. The King's visit was a sign of recovery.

PREACHER DENOUNCES BROADCAST SERVICES

(BY A. P. NIGHT WIRE)
SAN FRANCISCO, Jan. 10.—The practice of broadcasting church services was attacked from the pulpit of Calvary Presbyterian Church today by Dr. Cortland Myers, former head of reports of the Tremont Temple of Boston. "You can't worship God by listening to the radio," declared Dr. Myers. "God cannot be worshipped in any form of entertainment or in picture shows."

RAILROAD SURGEON FINDS AUTOMOBILE MAN UNINJURED

(BY A. P. NIGHT WIRE)
JACKSONVILLE, Jan. 10.—In a telephonic conversation today, H. N. Rodenbaugh, St. Augustine, president of the Florida East Coast Railway, stated that the party had had breakfast when the col-

COUNTERFEITING
SCANDAL QUIETSFrench Embassies Leave
Budapest for HomeAnxiety of Some Lessons in
Franc Forgery PlotStern Measure Against All
Inciters of Unrest

(BY CABLE-EXCLUSIVE DISPATCH)
BUDAPEST, Jan. 10.—The French embassies who came to Budapest to force the Horthy-Bethlen government to uncover the reactionary plot to force \$5,000,000 francs in French money returned to Paris tonight. Many in official circles are breathing freely again, convinced that the government will do everything to restrict the scandal to those denounced by the French, and that there will be no further search.

The government's first step today was to enforce the censorship and to curtail discussion of the scandal. The Village, a semiofficial paper, was forbidden to appear for a week. It copied an article from a Berlin paper disclosing the activities of the Fascist and the work of Count Kanya, Hungary's Minister to Berlin, whom the Democrats of Germany consider as the liaison officer between the former German and Bavarian governments.

Premier Count Bethlen today called in the leaders of all parties to a conference at which he announced that not only the Democratic press, but also the reactionaries, such as Deputy Ullrich and Herr Eckhardt, who threatened to have editors of Republican papers, would be tried for inciting unrest in the country.

DECORATE COMMANDER
(EXCLUSIVE DISPATCH)
OXFORD, Jan. 10.—George R. Kindred, of Berkeley, past commander of the American Legion in Ventura county, has been presented with a gold Legion pin with a diamond setting. The pin was the gift of the post to Kindred for his good work during the year 1925.

CRADLE OF ICE WINDS SOUGHT
Wilkinson Plans Search for Mythical Pole

Land Believed to Exist Under Arctic Pack

Theory Says Shore Lines All Fit Together

(EXCLUSIVE DISPATCH)
NEW YORK, Jan. 10.—When Capt. George H. Wilkinson, leader of the Detroit Arctic expedition, flies across the Arctic Sea, he will be searching for "the undiscovered continent" which he hopes to find beneath the pole star, he will also move toward another more or less mythical goal, one that has stirred the imagination of many meteorologists who have called this goal "the cradle of the ice winds."

Meteorological observations taken by Vilhjalmur Stefansson are said to indicate that the prevailing winds along the Alaskan-Canadian coast come from a common center pole, elsewhere on the globe, prevailing winds wing out from a central point in a somewhat similar manner. And, meteorologists say, the wind poles are usually higher than the surrounding territory. Thus the possibility that the cradle of the ice winds is a reality, has been suggested as another reason for believing that land may lie somewhere beyond the ragged horizon which always have hidden the center of the ice pack.

FORECASTS LAND FIND
The Arctic winds, Stefansson declares, "give me my best reason for saying that Capt. Wilkins has better than an even chance to discover land. I traveled from west to east along the Canadian side of the unexplored area and was met by prevailing winds which came from the general direction of the ice pole. Consequently it was my assumption that the ice pole and the wind pole are not far apart."

Neither the Arctic tides nor the Arctic winds, it appears, are entirely stable. Like them in the Arctic, the prevailing polar currents, in so far as is known, sweep in something of a grand circle around the westerly side of the ice pack. The westerly sweep of the ice pack's circumference was shown by the drift of the Jeannette, and by the drift of Stefansson's ship. These vessels, all of them immured in the Arctic ice, moved around the unexplored ice core like wooden horses on a merry-go-round.

Whether the rotary motion of the ice pack's circumference will be observed at the pack's center, the ice pole—is not known. The entire westerly side of the pack may be rotating in one direction. On the other hand, the core of the pack may be rotating in an opposite direction. Or it may be fixed. It is fixed, it is presumed, of course, that it must be on land. Geographers say it is not conceivable that a great mass of ice could remain immovable throughout the years.

SHOW BARRELS' DRIFT
Gilbert H. Grosvenor, director of the National Geographic Society, has issued maps which purport to indicate the route of two barrels that are known to have drifted from Point Barrow across the Arctic to the Greenland Sea. On these maps, the supposed drift lines cut through the center of the ice pack which Capt. Wilkins intends to explore. If the mapmakers had proof of this drift, the maps would be an argument against the possibility that land exists. But the mapmakers labeled their lines "conjectured drift."

Rollin A. Harris, who developed the Arctic tide tables and offered them as proof of the existence of a large unexplored continent, pointed out that in the Beaufort Sea—that arm of the Arctic Ocean which washes the shores of Alaska, Northern Canada and Banks Island—the prevailing drift is to the west. The westerly drift, he said, is induced by the prevailing northwesterly winds.

But, Prof. Harris declared, when the currents push north, the Beaufort Sea ice refuses to drift freely toward the north. The ice piles up and thickens, and so Harris declared that the ice drift in the Beaufort Sea offers a measure of proof that land exists. Many explorers have reported that the Beaufort Sea ice is abnormally thick and old.

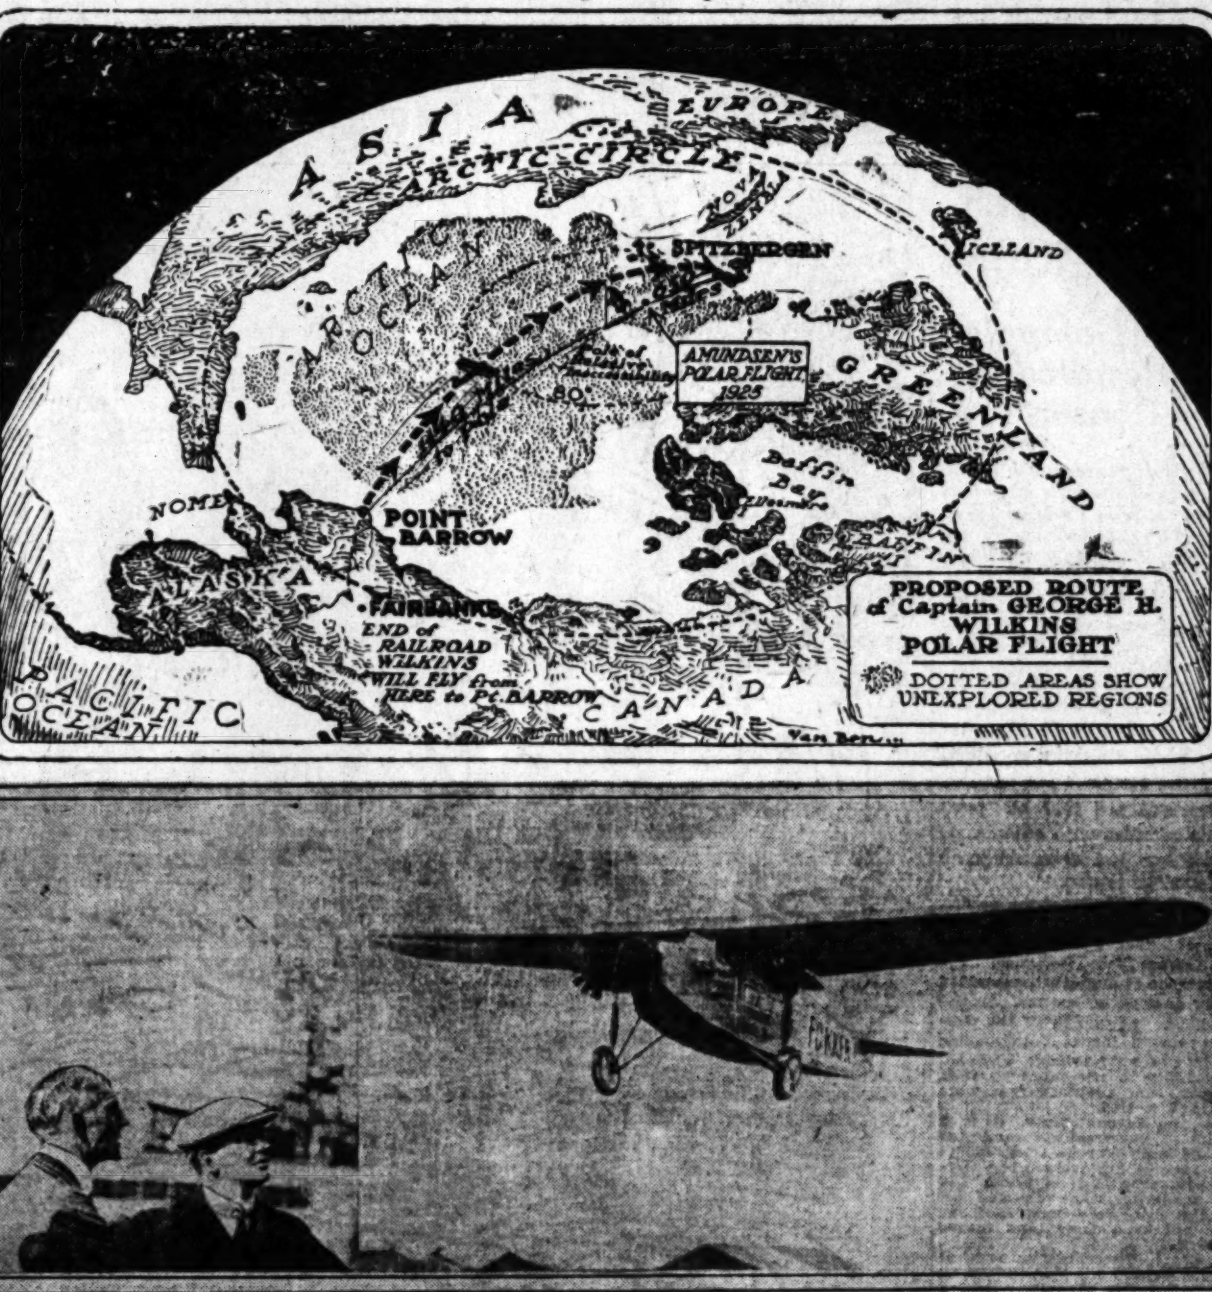

BELIEVES EARTH 'FITS'
Capt. Wilkins admits great interest in the Wegener theory that the land masses of the earth's surface would fit into each other, as some colossal jigsaw puzzle. As a man would squeeze an orange, when he has completed his Arctic expedition, he says, he intends to visit the Antarctic in hope of gathering information which would serve to substantiate Wegener's belief. Meanwhile he has been applying Wegener's theory to the Arctic.

"Push the Arctic continents and archipelagoes together," Capt. Wilkins declares, "and you will find that Greenland fits against the Norwegian coast, that Baffin Island moves up and fills Baffin Bay, Siberia, Northern Russia, Northern Norway, Northern Greenland, Grant Land and the large islands between it and Alaska, may all be pushed upward on the globe and made to fit against each other almost perfectly. But if Alaska is pushed upward to fill the sector which it should occupy, it is seen that it will not fit. There remains an open space."

"On the other side of the Arctic, Barents Sea cuts into the Russian coast something in the same way that Beaufort Sea cuts into the Alaskan coast. But on this side the Franz Joseph land archipelago and Spitzbergen archipelago, they fill up the chinks. On the Alaskan side, if such similar archipelagoes exist, they are not on the map. It remains for us to search the region where they may be."

Wegener's theory has been analyzed more than it has been defended. More than half of the distinguished geographers scorn it. "But," Capt. Wilkins declares, "it is at least an interesting fact that it is applicable to the Arctic regions as well as other parts of the globe, and that when it is applied to the Arctic, it indicates the presence of land in the unexplored reaches of the Polar pack."

New Continent Hunted by Expedition Across Arctic

Getting Set for the Arctic Flight
Above, proposed route of Capt. Wilkins' polar flight. Dotted areas show unexplored regions. The first objective of the expedition will be the "pole of relative unaccessibility," whence the flight will continue across the geographical North Pole to Spitzbergen. Total distance to be covered is 2100 miles. Below, Henry Ford and Fokker, designer, watching flight of a sister plane to the one now being mounted by the latter for the Wilkins flight.

STECK WINS ON
IOWA RECOUNT

(Continued from First Page)
whose regularity is 100 per cent. The Democratic members are Senators George of Georgia and Cawley of Arkansas.

With an unanimous report to back Steck's claims, the full committee is expected to recommend to the Senate that the seat which Brookhart holds belongs to his Democratic competitor.

STECK HAS MAJORITY
Figures prepared by the subcommittee, as a result of its investigation, show that of the vote cast in the election Brookhart apparently received 448,817 and Steck apparently received 447,044, thus giving Steck a majority of 827. But of the ballots cast, 300,167 for Brookhart and 246,436 for Steck were scratched and it was over large segments of these that the contest hinged in the Senate subcommittee.

It was agreed by the subcommittee that \$6,334 of the votes were cast for neither Brookhart nor Steck, and that the determination as to 7345 ballots, with the eliminations, Steck appears to have a majority of the uncontested ballots and also a majority when each candidate is given the contested ballots he is conceding Brookhart everything he claimed the subcommittee still found that Steck was elected by a majority of 81.

DURANT SHAKEN
IN A WRECK

(Continued from First Page)
Coast Railroad, said that Dr. J. N. Fogarty, chief surgeon of the company, made an examination of W. C. Durant, automobile manufacturer, and found him uninjured.

The examination was made here today upon the arrival of the special train bearing Mr. Durant and his party to New York, following the wreck at Frontenac.

The women of the party, Mrs. Durant and Mrs. R. R. Hicks, wife of Mr. Durant's attorney, also were uninjured. Dr. Fogarty reported to Mr. Rodenbaugh, but Mr. Hicks sustained a "slight scalp wound."

Peggy Joyce on Way Here Says "Nothing New"
CHICAGO, Jan. 10.—Countess Morner, the former Peggy Joyce, passed through Chicago tonight on her way to Los Angeles.

"No, there's no news," she said, as appealingly lovely as ever. "Just returning to Los Angeles to a new picture. I know nothing about the premiere of my last film."

EX-KAISER RECALLS THREAT

(Continued from First Page)
harmony cannot prevail in Europe while the perfidy of Versailles persists. The treaties of Bucharest and Brest-Litovsk, which are sometimes cited by Germany's enemies in justification of Versailles, were models of moderation compared with the preposterous instrument imposed in violation of the pledged word of the President of the United States and the Allies upon the German people.

"These other treaties," the Emperor explained, "were made during the war. While hostilities lasted we were compelled to keep military necessities in mind."

GERMANY GENEROUS
"Germany has always been generous in victory. The arrangements concluded in the smoke of battle and the haste of the armistice were regarded as final settlements."

"No sane student of history can regard the territorial settlements of Versailles as anything but a reached in defiance of justice and common sense, as final, no matter how often they are reconfirmed."

"It is noteworthy that, according to a dispatch in an American newspaper, I proposed at the conference for the maintenance of peace between Germany, England, the United States and France. You will find a reference to the speech in an addendum to my 'Historical Tables.'"

Without co-operation along such lines, the world will be doomed before the oncoming of Bolshevized Tartar and a mobilized Africa.

NEW ALLIANCE PROPOSAL
The future of civilization depends on the great Germanic nations, just as the preservation of American traditions in the United States depends largely upon the co-operation between German and Anglo-Saxon. Only such a partnership, based upon common ideals, as opposed to that 'Limited Corporation for Preservation of Allied Loyalty' known as the League of Nations, can save the world from the chaos of Bolshevism and international strife.

"Germany cannot participate fully in such a task while she is stripped of her territory, while her limbs are bound, while enemy troops, black or white, visible or invisible, lacerate her vitals, while the World War against Germany continues under the guise of exacting fulfillment of an unfulfillable treaty. Not as a mercenary, but only as a freeman and an equal, Germany can take part in the battle of civilization."

"The times are out of joint and I will remain out of joint, until the hour of the world's redemption is reached. Germany, reunited with Germany."

WILL KAISER COME BACK?
Will the Kaiser come back? Will he have an active part in the restoration of Germany? That is a question which many Germans today think they are bound to answer. The Kaiser's return to Germany is a question which many Germans today think they are bound to answer.

JOURNALISM
PROFESSORS
PLAN SHIFT

Exchange to Be Effected
Between Mexico City and Missouri Schools

(BY CABLE-EXCLUSIVE DISPATCH)
MEXICO CITY, Jan. 10.—With the arrival here of Dean William Williams of the School of Journalism of the University of Missouri and president of the Press Congress of the world, a plan is being formulated for an exchange of professors in journalism, said to be the first of its sort, is planned between the Missouri University and the National University of Mexico.

It is announced that during his stay here Dean Williams will lecture on journalism.

Selected as the Mexican exchange to go to the United States, according to present plans is Dr. Jose Manuel Puig Casaurio, cabinet member and at present Secretary of Education in the government of President Calles. Dr. Puig Casaurio is a distinguished journalist, author and statesman.

He has been editorial director of various newspapers in Mexico and was campaign manager of President Calles during his pre-election days.

Dr. Puig Casaurio looked after the Calles campaign publicity through the newspaper El Democra. He served as Senator from his home State, Campeche and is the author of a novel and a book of essays. He was graduated in medicine and practiced medicine for several years until he entered upon journalism and politics.

He has studied in Europe and represented Mexico in the Old World. He has been a frequent lecturer at the School of Journalism of the University of Missouri a series of lectures on Latin American Journalism and history.

Dean Williams is being extensively entertained in educational circles here and has expressed himself as greatly pleased at the reception accorded him by the university faculty.

SCORNB BY NURSE, YOUTH SLAYS SELF
TOWNSEND (Mass.) Jan. 10.—Believed to have been dependent because his love for a nurse at the Massachusetts General Hospital, where he was employed as an orderly, was not returned, Frederick Landry, 24 years of age, son of A. H. Landry, president of the Townsend Loom Manufacturing Company at Townsend, committed suicide by shooting himself through the head in his room in Chinatown. He had been employed at the hospital as an orderly, and, according to reports, fell in love with a nurse, who refused to marry him.

RETIRE PAPERHANGER IN FOURTH ROMANCE
FITCHBURG (Mass.) Jan. 10.—For the fourth time, John T. Neal, 71 years of age, has ventured into matrimony. As a culmination of a boarding-house romance he married Mrs. Julia Conway, who is about the same age. Mr. Neal, who is a retired paperhanger, has lived for some time past at 20 Poplar street, where Mrs. Conway has also made her home.

FALL OF PLANE KILLS
FLYER AND HURTS AIDE

(BY A. P. NIGHT WIRE)
HOUSTON (Tex.) Jan. 10.—Lieut. Raymond C. Sherburne, 34 years of age, of the Thirty-six Aero Squadron, was fatally injured here today when his plane went into a spin and crashed. He was 280 feet and crashed. Staff Sergeant Christie H. Williams, 27, was slightly injured.

ARCTIC CAPTAIN DROWNED
(BY CABLE AND ASSOCIATED PRESS)
NOME (Alaska) Jan. 10.—Capt. C. K. Geopole Larson of the schooner Durbury trading expedition, which left Nome three years ago, was drowned when he fell through a rift in the ice in the Arctic Ocean eastward of Point Barrow, friends were advised in letters received here from Point Barrow.

FIVE DIE IN BARGE WRECK
(BY A. P. NIGHT WIRE)
SEABRIGHT (N. J.) Jan. 10.—Three men, one woman and a child lost their lives when the barge J. Hopper was broken up by waves on a sand bar between Highland Beach and Seabright Cove yesterday. Capt. Butler of the Highland Beach Coast Guard station said.

NEW RIVER PLAN ADVANCE

(Continued from First Page)
It is understood, the necessity for ratification by at least six States of the Colorado compact as precedent to any water filings and development.

Submission of such a comprehensive plan worked out by the Colorado River Development Commission, but it is not yet indicating the determination of President Coolidge and his advisers to get behind the southwestern project, but as establishing the future for further efforts to obtain approval for the Swing-Johnson bill.

NEED SEVEN-STATE PACT
The preponderance of testimony and evidence now before the Senate Irrigation and Reclamation Committee clearly indicates that it will not be possible to obtain favorable consideration of such a measure prior to adoption of a seven-State compact. This has been made plain even by those who formerly supported in the upper basin States the Colorado River Compact.

It is anticipated, however, that the administration plan will meet the demands and relieve the fears of the Colorado River States by satisfying the representatives of the upper States that their rights are fully protected.

Under the plan to be advanced by the administration Imperial Valley will be assured protection from flood and afforded an ample and regulated water supply. Los Angeles will have access to additional supply of domestic water. The electric energy of the Colorado River will be made available for domestic expansion demands in areas that can be opened up for development.

Whether legislation will be introduced by the Senate Committee on the Colorado River Compact, while the House Agriculture Committee will give first attention to the administration co-operative marketing measures, it is practically certain that it eventually will be introduced by the Senate Committee on the Colorado River Compact.

ILLICIT LOVE CURSE ENDS SECOND LIFE
Suicide of ex-Police Chief Echoes Triangle Tragedy in Which Woman Died

(EXCLUSIVE DISPATCH)
CHICAGO, Jan. 10.—Death obliterated the second member of a love triangle when Elmer Robert Plummer, former Chief of Police at LaGrange, Ill., killed himself today at Haines City, Fla.

The first of the triangle to die was Mrs. Julia Douglas, a beautiful and successful actress, who was married to a Chicago police officer, George Douglas, master of riding accidents, became infatuated with her and slew her in a jealous rage over the attention of Plummer, who was paying her. He escaped the gallows, getting a sentence of seven years in prison.

Mrs. Douglas, a strikingly handsome woman, first met Capt. Plummer when he was invalided home from Europe after service in the World War. He was married and the father of a little boy. He began to pay marked attention to Mrs. Douglas and eventually his wife sued for divorce.

Loss of his wife and child and the murder of Mrs. Douglas weighed heavily upon the mind of Plummer. Letters found in his hotel after his suicide tell of his grief, disillusionment and of his failure to adjust himself to the broken home life and to build up a new career.

ENGINEERS SEEKING "LOST TREASURE" VEIN
ORE THAT ONCE YIELDED MILLIONS MAY BE WORKED BY NEW PROCESS

(EXCLUSIVE DISPATCH)
DENVER, Jan. 10.—A spectacular yet scientific hunt for gold of the famous Lost Treasurer vein of Hamilton, Nev., which produced \$700,000,000 in the '60s, is being staged by mining engineers from California according to J. E. Lovejoy, assistant superintendent of the Nevada Northern Railroad at Ely, Nev., a visitor in Denver.

"The Lost Treasurer vein is historic, and in the '60s it made Hamilton a camp of 20,000 people, where now all that is left is the old stockade hotel."

"Mining engineers from California have obtained title to most of the old property in the district, inspired by the new developments in ore treatment, are systematically developing the old workings to locate the gold vein which produced \$7,000,000."

"Operations at the old Hamilton camp are being carried on by the Tonopah Development Company, and the whole State of Nevada is watching with interest the systematic hunt for the old Lost Treasurer lode, which may result in putting Hamilton back on the mining map of the world, as it was in the '60s."

FARMER RELIEF
COMES TO FRONT

Senate and House Both Consider Measures

World Court Matter Again to be Taken Up

Expect Tax Bill Completion Within Week

(BY A. P. NIGHT WIRE)
WASHINGTON, Jan. 10.—While rubber and aluminum investments are going forward, the Senate will begin hearings on other important subjects.

Farm legislation will occupy the attention of the Senate Committee on the Commerce Committee, while the House Agriculture Committee will give first attention to the administration co-operative marketing measures, it is practically certain that it eventually will be introduced by the Senate Committee on the Colorado River Compact.

The Senate Finance Committee expects to complete the tax bill by the end of the week, and Justice exercised hopes to have the consideration started at once from tomorrow.

Final action on the World Court bill has been deferred until the tax bill has been enacted. The bill has been enacted by the Senate around March 1. The Senate taking up railroad legislation, the Senate Interstate Commerce Committee will continue its work on the bill.

Continuation of the Senate's inquiry into whether the Department of Justice exercised due diligence in conducting the investigation of the Aluminum Company of America has been deferred until today, as the Judiciary Committee has other matters to consider in regular meeting tomorrow.

RENO'S DIVORCE TRAFFIC SLACK
Paris and Mexico Blamed for Loss of Business in Nevada
(EXCLUSIVE DISPATCH)
RENO (Nev.), Jan. 10.—With only about 700 divorces granted in Reno in 1925 and the flood of wealthy eastern divorce-seekers showing an alarming decrease, Reno business interests are wondering if their most profitable source of income has been captured by other cities, Paris and Mexico are blamed for the growing unpopularity of Reno with the divorce hunters.

Two Dead, One Other Dying in Knife Attack
(EXCLUSIVE DISPATCH)
CHICAGO, Jan. 10.—Screams were coming from the home of Anton Kaufmann, 38 years of age, a picture-frame maker, this afternoon as he was chasing his wife, Mary, around the house, stabbing her with a broad knife. Louis B. Endre, 43, a next-door neighbor, hastened to the home and dropped dead as he opened the door and looked in.

MR. SAMUEL L. KOREN
2019 East Third Street
Los Angeles

MR. KOREN, who, in accordance with our offer, is now the glad owner of one of these feature tuxedos, has been a resident of Los Angeles about three years. He was educated in Bayonne, New Jersey. He is 24 years old, unmarried, and is employed by the Pacific Wire Rope Company. Mr. Koren is treasurer of the Palomine Club of Los Angeles.

WE ARE VERY GRATEFUL to the people of Southern California for their remarkably great interest in this contest, and for their patience while the judges considered the thousands of names submitted.

WE believe the name selected is worthy of the very excellent tuxedo it will henceforth identify. Thank you, Mr. Koren! Success to "The Promenader!"

LIST OF YOUNG SLAYERS LONG

Record of Crimes Laid to
Boys Is AppallingCondition Unparalleled at
Least in Modern TimesConfessions Show Failure to
Realize Deeds

BY FRÉDÉRIC J. HASKIN

(EXCLUSIVE DISPATCH)

WASHINGTON, Jan. 10.—Americans, straphanging in a street car, jolting along in a bus, or seated within their family circles in the evening find themselves facing a question that leaves them a little panicky, once its significance has begun to impress itself upon their minds. For these Americans usually have newspapers before them, in which they have seen history's most amazing era of crime recorded, day after day, for the past few years.

Recently a popular magazine devoted a number to crime. In that number was depicted, with the irony of satire, the crime wave that sweeps America today, and the startling part of it was that the subjects were not the usual young men, but the young women. The satire was not mistimed, for it is usually youth that perpetrates the crime of today. The average age of the criminal is below thirty, and lately the average has been lower, so far as ages are concerned. The crime of the part of mere boys is increasing.

BOY MURDERERS

During the past two years American society has witnessed an appalling list of murders by young boys. Never before, at least in comparatively modern times, have so many boys in their teens, or barely out of them, been behind prison bars for murder. There is something ghastly in the combination of immaturity and the power to kill and society, perhaps for the first time in the history of the world, finds itself afraid of its young, and taking steps to protect itself against them.

And when they are caught, in most cases they tell their revolting tales with naive crudity that seems to indicate that they neither appreciate their own situation nor the havoc wrought by them. It is this ominous phenomenon that causes civilization to wonder what unnatural thing it possesses that causes its children to kill.

There is the case of Gordon Pirie, 20 years of age and a murderer. He killed his chum, George Nye, robbed him of \$5.60 and fled. According to his own confession, Pirie killed his chum simply because he took a notion to.

There is the case of Harrison Noel, also 20, whose crime shocked the nation not long ago. Of unusually bright mind, this youth had been a good student and was graduated from high school when he was 17. To all appearances he was just a studious, dreamy lad, caring little for parties and girls, scornful of the foolishness of his age. But shortly after his graduation from high school he tried to kill his father.

He was sent to a sanatorium. Last June he escaped and his parents, believing that they could do more with him at home than the authorities could at the sanatorium, allowed him to remain. Last September he rented a taxicab, and while the driver was taking him to a supposed destination killed him. The next day he left his home in his own automobile, seized a little girl, playing in the street in front of her home, drove her out in the country near the spot where he had killed the taxi driver, and murdered her. Then he demanded a ransom for her return. Some specialists testified at his trial that Noel was sane. But others testified that he was hopelessly insane. He was sentenced to death.

There is the case of the youngest of the young murderers—William Cavalier, 14. The only hope this boy now has of escaping the electric chair is an appeal to the Board of Pardon of the State of New York for commutation. He is a large gawky boy, awkward, and looking like a normal lad just entering adolescence. One Saturday night he killed his grandmother. He locked the door to her room, after taking \$108 from her stocking, and went to a motion picture show. He said he killed her to get the money. Hundreds of thousands of messages were received asking the commutation of his death sentence.

There is the case of Roland McDonald, 15, who killed his 13-year-old school teacher, Louise Gerlach. The other murders named above took place in New York or in that vicinity, but this one was in the rural community of Amherst, Me. Asked why he did it, he replied, "I dunno. I just saw her coming along the road and decided to shoot her."

There was the case of Frank McDowell, a St. Petersburg, Fla., boy, 20, who murdered his father and mother and his sisters. He gave as his reason a desire for occupation, saying that he had once "cursed the Holy Ghost." He was sentenced to life imprisonment.

OTHER CASES

Then there were Lester Gerstenberg of Albany, John Gargulla, of New York, and Leopold and Loeb, of Chicago. The last mentioned shocked America with the new problem it must face. Their crime is too well-known to recite, but they are striking examples of the fact that it is not only the underprivileged youth that commits crime, but the educated and privileged as well.

And these are not all. Youthful criminals come from all classes and types, and they show the same signs of indifference to their crimes.

There is talk of more co-operation between States in police systems, a national police bureau, and other remedies for the crime wave, but these youthful murderers present a different problem. There is something intangible in their crimes, something that is not easy to explain. Perhaps the most reasonable explanation would lie in environment, and the inability or failure of parents to deal with their children's environment. For in environment the adolescent mind may be swayed in almost any direction. But, whatever the reason, its recognition and proper treatment will mean much for youth and society in general.

VENICE BILL SUBMITTED

The Fire Commission has requested the Mayor and Finance Committee to appropriate \$498 for the payment of water, telephone and gas bills incurred by the Venice Fire Department, subsequent to the consolidation.

ANCIENT GUESS GOES WRONG

(BY CABLE-EXCLUSIVE DISPATCH)

PARIS, Jan. 10.—Thomas Joseph Mout, who lived and died at Saint-Denis during the early thirteenth century, was known as a weather prophet in his day, and after his death it was found that he had left weather predictions in Latin as far ahead as the year 1925. Three centuries later these predictions were translated into French by Moutard.

The forecast for the winter of 1925-26 follows:
"The winter of 1925 will be long and quite dry, there will be heavy frosts and a considerable amount of snow up to the end of January, after which time the thaw will bring an abundance of rain. The harvest of grain for the year will be fair and the price will be moderately high."

During the past few weeks, France has had the worst rains and most severe frosts in many years.

JAPANESE NEWSPAPER PARTIALLY STENCILLED

EVOLUTION IN PRINTING ART
SHOWN BY PUBLICATION
IN CHICAGO

(BY A. P. MONT WIRE)

CHICAGO, Jan. 10.—The evolution of the art of printing is odd and graphically shown in each issue of the Dai-Nippon, Japanese daily newspaper published here. Printed by hand, it has a circulation of 900.

There are 50,000 characters in the old Japanese alphabet and some 20,000 in the simplified writing vocabulary. That is why three-fourths of the Dai-Nippon's news is in the complicated characters of the two alphabets, laboriously drawn by stylus on a stencil.

The remainder of the news is half in English and half in the new roman-letter Japanese, both transcribed on the typewriter. Current advertisements are sketched

by hand but 40 per cent of the four pages is advertised matter printed weeks in advance, with the aid of metal, hand-set characters. The news is run off by mimeograph and the newspaper requires from eight to twelve hours daily.

SAN JOAQUIN COUNTY FAIR DATE SETTLED

(EXCLUSIVE DISPATCH)

STOCKTON, Jan. 10.—San Joaquin county's 1926 fair will take place from August 24 to August 30, next, inclusive, according to a decision made by the directors of the fair association. The fifteen directors, representative of the farming interests of the county, also decided to ask twelve Stockton business men to serve the association as financial advisers during the coming year.

Large Standing Timber Acreage Bought by Hines

(EXCLUSIVE DISPATCH)

ALAMOGORDO (N. M.) Jan. 10. One of the largest standing timber transactions ever consummated in southeastern New Mexico was the recent sale of 50,000 acres of yellow pine, Douglas fir, white fir, balsam, Mexican white pine and Englemann spruce, to J. H. Hines of Memphis, Tenn., and associates, composing the Hines Lumber Company. This tract of timber is situated in the Mesquero Indian Reservation and all the cutting will be done under the supervision of the Indian Service. No trees under sixteen inches in diameter and breast high are to be touched.

It is estimated by representatives of the purchasers, who made a complete survey of the timber tract that it contains not less than 400,000,000 feet of commercial lumber. The sale was made on bids.

Besides the purchase of this timber tract, Mr. Hines and associates are negotiating for the timber holdings of the Cloudcroft Lumber and Land Company, also situated in the Mesquero Indian Reservation. It is stated that if the latter transaction is accomplished, the Hines company will be in position to produce more than \$3,500,000 worth of lumber from the tract.

The Hines company has a contract with the Southern Pacific Company for supplying the tract with 15,000,000 to 15,990,000 feet of cross-ties a year.

THIS is the time to invest for larger returns. Invested money guaranteed returns of 5 to 10 per cent. **PACIFIC INVESTMENT CO.**, 333 Pacific Mutual Building, Los Angeles.

Kachoo
where's the
MUSTERO

Years ago women broke up colds and congestions with a messy mustard plaster.
Now, with the first sneeze, they get out the jar of clean white Mustero. They know Mustero is better than the old-fashioned plaster, and does not blister.

Don't trust colds lightly. Penetrates and softens the throat. Takes a little Mustero on your finger tips and massage the congested area. It penetrates with a soothing tingling and quickly relieves all inflammation. You'll be surprised how soon the cold is gone. Use Mustero for sore throat from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuritis, headache, congestion, pleurisy, rheumatism, lamboago, pain.

Western Electric
SUPPLY DEPARTMENT

NOW

GraybaR
ELECTRIC

Since January 1st, the Supply Department of Western Electric has been operating under a new name.

It is known now as the Graybar Electric Company.

But Graybar is new in name alone. The organization in this city and in every one of 54 other cities remains as before. The high quality electrical merchandise formerly associated with Western Electric will be just as closely linked with Graybar Electric in the future.

The guarantee of this goes deep into the history of Western Electric. Fifty-six years ago this organization was founded by two men of vision who saw that only on true quality could any business be built. These men were Gray and Barton. Gray and Barton, too, was the company name; from which Graybar is derived.

Behind it the ripe experience of age, before it the keen desire of youth to serve—the Graybar Electric Company looks forward to a place of ever-growing importance in this community.

HARR

RED TURNS IN
ONE LONG DASHReturns Punt 51 Yards, But
Penalty Is InflictedAll-Southern Drop Game by
14-to-0 CountIllinois Star Due Here
Thursday Morning

(EXCLUSIVE DISPATCH)
NEW ORLEANS (La.) Jan. 10.
Red Grange, the galloping ghost
of the gridiron, galloped for New
Orleans this afternoon for the
first time since he was kicked out
of the game last week. The crowd
was called back because it had
been so big that the referee had
to clear the field. Grange in action
led his team defeated Lester Lau-
schlager and his All-Southern
team by a score of 14 to 0. Red did
most of what was done. He was
the opposite of what was done.
Instead of the tackles, instead of
the ends.

In the fourth period Grange
scored all about about being
one of the greatest of all
players in the business when
he caught "Moon" Unco's
40-yard punt and returned it
through the entire line, shaking
off tacklers left and right and
brought it back 51 yards to the
yard line. The referee realized the
Bears for holding, however, and
Red only got twenty yards on his run. But that did
not rob the crowd of the
thrill of seeing the greatest of
Red in action for those fifty-
one yards proved to them he
was a champion. From the 34-
yard line, where the ball was
placed, it was merely a matter
of time for the Bears to
score. In the third period Grange
got off tackle for twenty-two
yards and was brought down on
the yard line by Lautenschlager.
Penalty robbed the Bears of a
touchdown.

During the game Grange
scored the last fifteen times
for a total yardage of 185
yards. Twice during the game
he was thrown for a loss,
once for 9 yards and again
for 1 yard. Each time the
man who broke through the
line was Gene Bergey. The
star of two seasons ago
played the entire game
with the exception of five min-
utes of the second quarter.

DID HIS WORK WELL
Grange did nothing more than
was expected to do, but did
it well. On the offense he did
nothing. On the offense during
the game he was not carrying the
load only one man during the art-
istic. He was taking no

VICK MAKES SCORE
The Bears had scored in the
first period when "Moon" Du-
cane's punt was blocked after
which had punted to the 2-yard
line and Ernie Vick, former Mich-
igan star, fell on the ball for a
touchdown. Bitton kicked the
point.

Vikings Shatter Hopes of Sons of St. George in Mad Dash for Soccer Gonfalo

NORSE ELEVEN UPSETS DOPE

Red Shirts Sent to Laundry
From Loyola Field

Favorites Given Trouncing in
3-to-1 Grid Game

Scots Stage Rally to Mop Up
Thistles, 5 to 2

The hopes of the Sons of St. George soccer team of tying the Mercuries in the Los Angeles soccer loop were rudely shattered at Loyola Field yesterday afternoon when the Vikings handed them a 3-to-1 licking. The result confounded the dopesters, who had figured that the Red Shirts would take the points. The winners were fully deserving of their win, earning every goal scored. The Sons played under a severe handicap in the second half, when Slavson was forced to retire from the game with an injury.

Cleve opened the scoring for the Vikings when the game was ten minutes old. Briz gave the tricky inside right the chance when he gave him a nice pass in the goal area. Southern made a play for the ball, but could not reach it.

Neither side was able to score further in the first half, although the Sons dominated for a considerable portion of the time. Their forwards were weak in finishing, however, and made excellent chances were passed up.

Changing over, the Sons were soon on even terms when Maynard found the net on a pass from Garrett. This condition prevailed until fifteen minutes from the time when Briz gave the Vikings the lead with a well-placed goal. The doctor added another five minutes later for good measure. His last effort was the best of the match and had its inception in a corner kick.

Scots came from behind to beat the Thistles in the opener. At the half the Wags were leading 3 to 1. Sheppard and McFarlane having scored for the Thistles. Arnold, who had netted for the Scots.

In the second half, however, Arnold, a newcomer, went through the Thistle defense like water through a sieve and scored four more goals. Without detracting from the efforts of Arnold, these were made possible by the tactics of the Thistle backs who played white open.

Both games were fast and well played and a crowd estimated at 1500 was in attendance.

GIANTS-SHELLS IN THE

Despite their being nine runs in arrears the Philadelphia Royal Giants stuck to the ball game yesterday at White Sox Park and tied the Shell Oilers, 10 to 10, the game being called on account of darkness. The Oilers, who were ten runs in the fourth inning, the only inning they counted in, while the Giants rallied in the close of the game and outlasted eight runs in three innings. Schupp, who started the game for the Giants, was chased, while Carter, who relieved him, was treated in the same manner. Score:

OBSERVATIONS

BY THE
INNOCENT
STANDER,
BILL HENRY

THE REARRANGEMENT of the Pacific Coast Baseball League, if it is consummated as is so expected, will be the finest step forward in the history of that distinguished organization. The Coast League is distinguished for the fact that ever since it was first organized the magnates have been fighting among themselves with a ferocity and stubbornness quite without parallel. Everything came to a climax at the great comic opera meeting at Catalina a couple of years ago when President Bill McCarty, who had been running things in a high-handed manner over the votes and protests of the majority, was thrown out on his ear in a manner equally high-handed and Harry A. Williams, until that time head ball expert of The Times, was put in his place.

Harry, being a peaceable resident of the Quaker community of Whittier, announced a policy of peace and progress and has stuck to it despite the yelpings of some of the magnates and some of his former playmates. The result has had its most peaceful and prosperous year since he took charge. Two years ago all records for attendance and money-making were broken and last year, while it was not calculated to set any new records, was very good. The new move which will give both Los Angeles and San Francisco continuous baseball and will eliminate the bad jump to Salt Lake, ought to result in renewed interest throughout the organization.

If the Southern California \$10,000 golf tournament did nothing else, it convinced everybody who was driving down Wilshire Boulevard that there were a lot of people in this part of the country who are boughs on one particular subject. Every day of the tournament there was a line-up of cars running into the hundreds parked along Wilshire round the I. A. Country Club and the interest unquestionably was greater than has ever been previously in tournaments of this type despite the fact that many regard the class of the field this year inferior to that of two or three years ago when Burns and all that crowd were out.

Hollywood A.C. Boasts Strong Swimming Team

Prospects for a banner year in the water were declared to be the best ever by Coach Clyde Swanson of the Hollywood Athletic Club. According to Swanson the "Circle H" team which he has lined up will be a strong contender for the Pacific Coast championship. The Hollywood club won the Southern California indoor swimming and diving championships last year and Swanson expects to repeat this year. The following team will compete for the Hollywood Athletic Club this year.

Los Angeles, 90 yards, 23 1/2-24, 100 yards, 50-54	Verona, 100 yards, 24 1/2-25, 100 yards, 100 yards

NEVERS OUT FOR A WEEK

(BY A. P. NIGHT WIRE)

JACKSONVILLE (Fla.) Jan. 10. Ernie Nevers, fullback from Leland Stanford University, was resting easy tonight in his room at the Mason Hotel. Examination today confirmed reports of the physicians at the field yesterday that he had torn ligaments in his back when he was downed in an attempt to hurdle the line during the game with the New York Giants. The Giants won, 7 to 0, from Nevers and his Jacksonville All-Stars eleven. Nevers will not be able to play again for at least a week, his physicians said.

CROWN CITY TRIUMPHS

TEAM	GOALS	POINTS
Crown City	1	6
Wilmington	0	0
Cum	1	6

There will be no "fall guys" in the Los Angeles Tigers when Red Grange and his Chicago Bears tangle at the Coliseum, the 14th inst., according to George Wilson, captain and all-American half-back of the local team. Wilson predicts that the Grangemen are in for a real fall when he, Bill Blewett, Roy Baker, Hobo Kincaid, Honey Earle and Dan Hay line up with George Baker, Swede Rentus, Jack Nolan, Paul Nimick, Felton McConnell, Gene Corey, Tiger Ratterman, Lee Dempsey, Hayden Fyhtlan, Dee Hufford, Walter O'Brien, Oat Smith, Dewey Lyle, Church Winterburn, Hoge Evans, Harry

Shipkey, Stew Beam and Bill Cole, forming halfbacks, centers, guards, ends, quarterbacks and tackles, respectively.

Fuss Halbritter, one of the local sportsmen sponsoring what will be a historic game in local football annals, is doing everything within his power to show each individual player just what a fall guy stands for in plain American language. Fuss declares that if the Tigers fail to stop the mighty Grange in the melee each player will be in "the fall-guy" class all by himself.

HARVARD DRAWING CARD

Harvard drew \$48,451 to its football games this season.

NO "FALL GUYS" WANTED AMONG GRANGE OPPONENTS

BRADSHAW TURNS PRO

(BY A. P. NIGHT WIRE)

SAN FRANCISCO, Jan. 10. — Jimmy Bradshaw, former star on the University of Nevada team and later a member of the Olympic Club eleven, has decided to turn professional. M. S. Cowen, a local promoter, announced today that he had signed Bradshaw to play on a team which will oppose Red Grange's Chicago Bears here January 24.

Cowen announced also that he had come to terms with "Skipper" Stivers, assistant coach at the University of Idaho, but that Stivers desires to obtain permission from Bob Mathews, Idaho coach, before signing a contract with him.

CHRYSLER

Electrifying New Prices Reductions from \$50 to \$110

Touring Car	-	-	-	\$845
Roadster	-	-	-	\$890
Club Coupe	-	-	-	\$895
Coach	-	-	-	\$935
Sedan	-	-	-	\$995

Effective January 9, 1926. All Prices F. O. B. Detroit, Subject to Federal Excise Tax.

Four Wheel Hydraulic Brakes Optional at Slight Extra Cost.

Thanks to the swiftly climbing sales and steadily swelling production volume of Chrysler "58", new and greatly lowered prices are made possible which render the "58" more unmistakably than ever the value supreme in its class.

Chrysler "58" sped far away from all possible competition months ago in its own low priced field, *outselling everywhere* when it provided such striking performance features as 58 miles an hour, 25 miles to the gallon of gasoline, and a pick-up of 5 to 25 miles in 8 seconds.

Precisely the same quality---precisely the same performance---precisely the same fine appearance---precisely the same beautiful body and chassis at these new prices deal a body-blow to anything even remotely seeking comparison with the "58", which will instantly be recognized with a thrill of delight, by every student of motor car values.

McLarnin and Taylor in Great Shape for Vernon Bout

RIVAL FIGHTERS PRIMED TO WIN

Jimmy Made Slight Favorite in Betting Circles

Boxers to Weigh in for Go Tomorrow Afternoon

Interest in Scrap Indicates Great Turnout

Jimmy McLarnin and Bud Taylor finished up their training yesterday for their 10-round battle tomorrow night. Both in excellent condition, the two fighters will enter the ring with no physical handicaps. For his first fight with the popular McLarnin, Taylor has a sore hand. The second bout which was scheduled for the 11th inst. was postponed because of Taylor's arm and less covered with boils.

ADDED INTEREST
Interest in the bout is a little different than in most boxing matches. It has never yet been proven to the satisfaction of the rival backers of these two fellows which is best man.

Many did not concede Taylor the verdict in the first match since Jimmy completely outclassed the Terro Haute Terror the first five rounds. Then he was knocked out by Taylor on the sixth round. Taylor came on to take the final rounds. Judged on rounds that one should have been a draw.

Action of Doctor Whitman
stopping the second fight in the second round was questioned with heat at the time as McLarnin did not want to take the fight in that manner, although he had been struck by several times.

The name of the referee for Tuesday night's scrap will not be known until time for the bout to get on. The boxing commission, following its usual custom, will name the official for the hectic fight.

TAYLOR LIKED
McLarnin has been quoted in some circles as a 10 to 7 favorite. But they will hardly go to the fight at that money. Some of the experts will pick Taylor over the marvel boxer of the Coast, basing their judgment on the tremendous speed and endurance of the Indiana boy.

GRANGE WINS TILT IN SOUTH

(Continued from First Page)

not find rushing the Los Angeles Tigers line easy when the teams met at the Coliseum next Saturday afternoon. Manager Jack Nolan, Halbritter last night announced that he had signed John J. Hawkins, 1914 University of Southern California captain.

Hawkins, although he played quarterback during his last season in school, was perhaps the best guard on the Pacific Coast the two previous years, and that's where Coach Nickerson will use him against Grange & Co.

The acquisition of Hawkins gives the local team one of the most powerful forward walls ever recruited anywhere. Jack Nolan, Belmont McConnell, Paul Minnick and Gene Corey are the other stars. George Baker and Fred Haines the centers, and Stew Hamm, Harry Shipke, Bill Cole and Percy Loe of Carleton College, the tackles.

The Bears played in New Orleans yesterday, and board the bus to Los Angeles at 10:30 a. m. on Sunday. They will play at 1:30 p. m. on Sunday at the Coliseum.

GOODYEARS WIN
Four runs in the seventh inning gave the Goodyear Pathfinders a 7-6 win over the E. M. Smith nine at Goodyear Park yesterday.

HOLD ANNUAL RACE
The Jewish Community Bureau of Recreation of Buffalo will hold its annual marathon race on the 11th inst. The event has been held ten years and promises to be the most successful ever staged.

MOIST BALL ARTISTS

SPITTERS

STANLEY COVELESKIE, THE LEADING SPITBALL PITCHER.

Metropolitan Newspaper Service

BY FEG MURRAY

The spitball pitchers seem to be nearing the end of the almighty trail. Their saliva won't dampen the diamonds for very many years longer, and be the cause of long-drawn-out games and infield errors.

Look over the list of the spitballers in the majors. All of them have seen at least ten years of major league service, and their average age is 35 years. It doesn't require much vision to see the year when this trick delivery will be a thing of the past.

Stanley Coveleskie of the champion Washington Senators stood head and shoulders over any other spitball pitcher last year. Although he was ineffective against Pittsburgh in the world series, losing two games, he led the American League with twenty wins and six losses for a percentage of .667.

In the National League, the spitball pitchers fared much worse than those in the younger circuit—Sothern, Mitchell and Grimes all losing more games than they won, the total for the three being thirty victories and forty losses.

Of the Phillies, is the only left-handed "spitter" in captivity.

ROUNDOING THRO

by Hugh A. Jennings

THE TOWN THAT TIRED OF WINNERS

CHAPTER XLIV

Judged by his record, Cornelius McGillicuddy, known in baseball as Connie Mack, has the best record in the American League as a manager.

Mack can be described as a shrewd, cunning and intelligent. He, too, is a spitballer.

He developed one of the greatest infielders of all time, considering hitting and fielding ability. His pitching staff consisted of able pitchers, well handled by Connie.

Mack proved one thing to the satisfaction of all, and that was that a consistent winner can be as contented as a loser in certain cities. He had a team that won with machine-like precision, but in 1914, when his team was in the midst of its form, he could not get the crowds to come out to his ball park.

Philadelphiaans had been told that the Athletics were the best team in the world. The thing was becoming notorious to them eventually. If it had not been for the crowds that the Athletics drew on the road and the club's share in the World Series of 1914, the owners would have had money that year.

It was a matter of fact, they barely broke even. The result was that after the World Series Connie decided to disband his team and begin building a new combination. In this I think he was justified. He had a great team that was a losing proposition at home. His players, having won a pennant, wanted the money on the street.

Contracts that Mack could legitimately afford to pay.

The conditions that existed in Philadelphia also existed in Boston. They got tired of winning teams in Boston and the winners lost patronage in New York. It is different. If the team does not happen to be up in New York, it falls to draw. They have to have a winning team in New York. The more the team wins the more fans will come out to see the team play.

When Mack decided to rebuild, he did not know what was ahead of him. He faced ten long and lean seasons, in which his team was never higher than seventh. Not until 1924 did the Athletics begin to show a tendency to climb. Building peasant winners was long and difficult undertaking, as Connie can tell the world, and if anyone doubts him he has a record to prove every word he says.

Bill Carrigan was one of the best managers the American League produced. Carrigan took charge of the Boston Red Sox after Jake Stahl resigned as manager. His appointment aroused little enthusiasm. Fans seemed to agree that a grave mistake was being made. Carrigan's job. They did not think him capable, but he handled them all. He showed remarkable managerial ability, and this, coupled with his shrewdness in picking pitchers and handling them properly, his knowledge of human nature, and an ability to drive men and get the last out of them, made him a sterling leader. He had a wonderful outfield in Duke Lewis, Tris Speaker and Harry Hooper. I do not believe the game ever saw a trio that surpassed them for fielding excellence.

OTHER MAJOR LEAGUE SPITBALL PITCHERS—URBAN FABER, WHITE SOX. BURLING GAMES, PHILLIES. CLARENCE MITCHELL, PHILLIES. JACK QUINN, ATHLETIC. URBAN SHOOKER, YANKEES. ALLEN SOTHERN, CARDINALS.

STECHER FOR WINNER

Conqueror in Pesek-Vadelpi Grappling Bout to Get Chance With Champion

Dangling a match with Joe Stecher in front of John Pesek and Oreste Vadelphi as an added inducement for the winner of their match at the Olympic next Monday night, Promoter Lou Daro yesterday made sure that these heavyweights would stage a melee of unusual interest for his patrons.

Following that, Daro also promised the winner of the George Kosonaras-Jack Roller semi-final, a shot at J. M. London.

Stecher has been dodging Pesek, a 215 pound Vadelphi, since he came to Los Angeles last night and was highly elated when he learned that the winner would get the much-sought contest with the mat monarch.

The latter has taken over several pounds of superfluous flesh in the last week at the Manhattan gymnasium and expects to be down to his best wrestling weight of 205 pounds by Wednesday.

Vadelphi, who was in Los Angeles last night and was highly elated when he learned that the winner would get the much-sought contest with the mat monarch.

MINERS AGAIN REJECT PEACE

Turn Down Plan to Name Hughes Mediator

Persist in Opposition to Arbitration Principle

First Sunday Conference Fails of Results

(BY A. P. MORT WIRE)

NEW YORK, Jan. 10.—Anthracite miners and operators, after nearly a five-hour session today, failed to come to any understanding and adjourned until 10 a.m. tomorrow. It was the first Sunday session ever held in the long history of hard-coal wage conferences.

The operators voted down a proposition for a night session proposed by the miners. Two proposals were voted down, one by the miners and the other by the operators.

Chairman Alvan Markle proposed, according to a statement issued, that since the parties could not agree on a contract, the miners' proposal, the operators' plan and the Markle plan should all be submitted to Charles E. Hughes, former Secretary of State, to consider all suggestions and formulate a plan that would be the basis for a contract.

The operators voted "yes" for Mr. Markle's proposal, but the miners voted against it. Mr. Hughes was counsel for the United Mine Workers of America before he became Secretary of State.

It is understood that the miners were not opposed to Mr. Hughes himself, but looked upon the latest Markle proposal to throw all plans into a basket and have Mr. Hughes make a decision on them, as a form of arbitration.

The statement issued by the conference said the miners offered what they designated as a "revised Markle plan." The principal provisions were an agreement for five years which could be changed by a board created under the plan. A board would be established, consisting of two miners, two operators and three representatives to be selected by former Secretary Hughes. The board would investigate and determine whether the operators can reasonably pay a wage increase. If the board should determine on an increase, it would be retroactive.

The operators voted down the revised Markle plan offered by the miners.

SPECIAL DEGREE GIVEN

(EXCLUSIVE DISPATCH)

GOLDEN (Colo.) Jan. 10.—The profession of petroleum engineering has risen to a place of importance where a special degree to students specializing in this subject is now awarded by the Colorado School of Mines located here. Each year a greater number of students choose this special field of engineering and the school is steadily expanding its facilities to meet the needs.

EXPERIMENTS WITH LEPROSY VALUABLE

[P. & A. Photo]

Prof. Renstierna

(EXCLUSIVE DISPATCH)

NEW YORK, Jan. 10.—It is a well-known fact that animals are very necessary in the fight against disease for experimental purposes. There are some diseases, however, that cannot be transferred to animals among which leprosy has long been listed.

Prof. Renstierna, the famous Swede, has discovered a method of transferring this terrible disease to monkeys and great hopes are fixed on this.

Intimate Friend of Buffalo Bill Dead in Nevada

(EXCLUSIVE DISPATCH)

RENO (Nev.) Jan. 10.—An intimate friend of Buffalo Bill Cody, Frank and Jesse James, Kansas bandits, and Edwin Booth, famous actor, crossed the Great Divide with the death in Reno of Louis S. Dittman. The grizzled frontiersman, 78 years of age, hunted bison with Buffalo Bill, checked the revolvers of the James brothers when they attacked the town of Wichita, Kan., and was widely known throughout the West.

He always declared the James brothers were loved and respected by the rough men and women of the Kansas towns, and that many times the citizens aided their escape from Federal agents. As a boy he listened to the fiery debates between Douglas and Lincoln in Illinois, and herded cattle where Jackson Park, Chicago, is now situated.

Judge Refuses Citizenship to Exempted Alien

(EXCLUSIVE DISPATCH)

TUCSON (Ariz.) Jan. 10.—"I have never admitted any alien to citizenship who was here during the period of the war and who then claimed exemption as an alien, and I don't believe I ever will." This declaration by United States Judge W. H. Sawtelle was in connection with his refusal to consider the citizenship application of Pedro Lopez, who, it was found, had claimed exemption from military duty on the ground of alien status.

(EXCLUSIVE DISPATCH)

AUGUSTA (Me.) Jan. 10.—The highways of New England, except in the extreme southern sections, are covered with hard snow or ice, but the covering is light and through motor traffic is proceeding much as usual except in Northern Maine, where drifted snow has made roads impassable. In Northern Maine snow is more than a foot deep on the roads. From Bangor north and east, and from Portland northeast along the coast to Machias, the roads are practically impassable. The roads from Concord north to Franklin and Buxton Woods are covered with hard snow, and are not in as good condition as those to St. Johnsbury, White River Junction, Montpelier and Burlington, where the snow is less than two inches deep.

MARRIAGE AND LARGE FAMILY LONGEVITY AID

MISSOURI WOMAN ALSO FAVORS LIFE ON FARM FOR CHILDREN

(EXCLUSIVE DISPATCH)

ST. LOUIS, Jan. 10.—Marry young and rear a large family of children if you want to live long and be happy, is the advice of Mrs. Sarah Townsend of this city, who will celebrate her ninety-fifth birthday on February 13, next.

"And if you want to know personally your children, grandchildren, live on a farm," she adds. "Every one knows that you should avoid intoxicating liquors and cigarettes. I would add too, that—avoid dancing the Charleston. Eat good food, live a wholesome life, sleep at least eight hours out of the twenty-four."

Mrs. Townsend has ten children, thirty grandchildren and twelve great-grandchildren.

Reindeer Contented in Their New Home at Big Pines Park

Ideally located in the permanent home provided for them by the County Board of Supervisors in Big Pines recreation park, northeast of Los Angeles, Prancer, Dancer and the rest of the reindeer that brought joy to Southern California boys and girls, are having the time of their lives. Pictures on this page show the famous reindeer roaming beneath the pines and thoroughly enjoying the snow, the first they have seen since last winter. The park is easily accessible by automobiles over good roads, either by way of Palmdale or San Bernardino, enabling parents to take their children to see the reindeer the year around. (Photos by George R. W. Staff Photographer.)

OUR HISTORY IN PICTURES

IN 1926 SIMON BOLIVAR, THE SOUTH AMERICAN PATRIOT, CALLED A CONFERENCE OF THE NEW REPUBLICS AT PANAMA TO PUT THE MONROE DOCTRINE INTO PRACTISE. — •

THE UNITED STATES WAS INVITED TO PARTICIPATE BUT DUE TO A HOT DEBATE IN CONGRESS ON THE SUBJECT, THE AMERICAN DELEGATES WERE DELAYED AND ARRIVED IN PANAMA AFTER THE CONVENTION HAD ADJOURNED —

NOT LONG AFTER ADAMS ENTERED THE WHITE HOUSE, HIS FOLLOWERS ORGANIZED A NEW POLITICAL PARTY UNDER THE NAME OF "NATIONAL REPUBLICANS." — •

THE "DEMOCRATIC-REPUBLICAN" PARTY, NOW DOMINATED BY THE SUPPORTERS OF ANDREW JACKSON, SHORTENED ITS NAME TO DEMOCRATS.

THE DEMOCRATS DEMANDED A STRICT INTERPRETATION OF THE CONSTITUTION.—
THE SOUTHERN WING OF THE DEMOCRATIC PARTY ARGUED FOR STATES' RIGHTS.

HIGH BLOOD PRESSURE

20,000 People Treated Successfully

At least 20,000 people have successfully taken the Witter Water Treatment for High Blood Pressure. Probably you wonder just who they are, to what extent Witter Mineral Water helped them. One of them is Mrs. F. X. Luxem, 717 Tyler St., Gary, Indiana. Due to High Blood Pressure, she had lost her sight and speech; was unable to swallow solid food or move her legs and arms. She took the Witter Water Treatment. Today, she is perfectly well.

This is only one case—one of 20,000. Naturally we cannot print them all here. But we will gladly send you names and addresses. Surely, the fact that Witter Mineral Water did produce results in 20,000 cases is reason for at least investigating this treatment. Mail the coupon.

Help that lame, achy back!

ARE you dragging around, day after day, with a dull, unceasing backache? Are you lame in the morning, bothered with headaches, dizziness and urinary disorders? Feel tired, irritable and discouraged? These are common signs of kidney weakness. Don't risk neglect. Help your kidneys with Doan's Pills. Doan's have helped thousands. Are endorsed by home folks. Ask your neighbor!

Here's a Los Angeles Case: W. T. Adams, retired farmer, 3219 Wall St., says: "I could hardly turn in bed because of the sharp, digging pains that came through my back. My kidneys were irregular and nights I had to get up to pass the secretions. Doan's Pills rid me of the trouble."

BOSTON MARVEL IN OPERA DEBUT

Irene Crane Scores Success in Milan Production

Youngest Singer to Attempt Role of Mimi

Ability Discovered at Music School Settlement

(EXCLUSIVE DISPATCH)

BOSTON (Mass.) Jan. 10.—Irene Crane, 20 years of age, a product of Boston's West End, has started the musical critics of Italy by her remarkable voice. This new music marvel made her debut in Milan recently and scored a tremendous success. She gained the distinction of being the youngest singer ever to appear in the leading role of Mimi in Puccini's "La Boheme."

A year ago, Miss Crane left Boston to go to Italy. Her training has been entirely American. She needed some study in Italy on Italian scores. And, within a year after her arrival there, she has reached her heights.

To her first teacher in Boston, Stetson Humphrey, of the Boston Music School Settlement, Miss Crane attributes her success. He has constantly worked with her voice and his kindly words of encouragement, his patience, and his confidence in her kept alive the hope that some day she might reach the goal.

A year in Italy was deemed advisable to study Italian scores. While there she found time to write to her teacher and tell him of her progress and daily he wrote to her. Last summer Mr. Humphrey went to Italy and it was decided that she should seek a hearing before the music managers.

When the time of parting drew near, the love that had been growing for years was admitted. To London they went and were married.

Miss Crane is coming home in a few weeks. She will probably sing two or three roles with the Scala Opera Company in Italy before her departure. Then she will proceed to New York, where a hearing is awaiting her at the Metropolitan Opera-house.

It was five years ago, that Irene, a little girl of 15, presented herself at the Boston Music School Settlement and wanted to become a singer. She sang a popular ballad for Mr. Humphrey. He did not encourage her. But Irene wanted to study just the same. Mr. Humphrey worked hard with his new pupil. At the end of two months he was convinced that few other dramatic sopranos in the United States had a range that could compare with hers.

At 15 years of age, according to those who have followed her progress, she could sing three complete octaves, striking four E's with remarkable buoyancy and brilliancy of tone.

Miss Crane now reads and writes five languages fluently and has a retentive memory for musical scores. She is also a fine pianist.

Dry Law Relics Used as Models While Exhibited

(BY A. P. NIGHT WIRE)
OKLAHOMA CITY, Jan. 10.—Because they were too useful as models, trophies seized by prohibition enforcement officers have been released from the exhibition rooms of the Oklahoma Historical Society here to the storeroom.

Until recently an extensive collection of stills, apparatus and ingenious devices for hiding liquor was on exhibition.

"Many people came here for no other purpose than to look at the stills and ask questions about them," said J. B. Thornburn, secretary of the society. "Several even wanted to make drawings of them. We decided we did not want this class of people to visit us, so we moved the stills out."

BURNET COUNTY, TEX. HAS NUMEROUS CAVES

ENTRANCE TO ONE OF LARGEST CAVERNS IN FAIRLY LEVEL PLAIN

(EXCLUSIVE DISPATCH)
BURNET (Tex.) Jan. 10.—Probably no place in the State has a more interesting spot than Burnet county, which has a huge cave seemingly of rock.

In that part of Burnet county lying west of the divide between the slopes of the Brazos and Colorado rivers are many caves, which were evidently formed under deep seas. The surface indications are that these caves are very numerous and it is possible that many of them are connected and are very extensive.

The largest of these caves is known as the Burnet County Cave or Sherrard's Cave, lying about ten miles southwest of the town of Burnet. This cave is peculiar in that the entrance is not from the side of a hill or mountain, but one finds a large hole in a comparatively level plain, which was made by the roof falling in. Immediately surrounding this opening the ground is rather level and has no drainage except into the cave, consequently after flood rains a large amount of water accumulates in the cave, which forms quite a stream which seems to disappear finally into the bowels of the earth.

At one time this cave was inhabited by millions of bats, but no bats have been found there for several years.

CLOCK APPROPRIATE GIFT FOR EMPLOYEE

(EXCLUSIVE DISPATCH)
FITCHBURG (Mass.) Jan. 10.—For fifty-one years Miss Ellen G. Hart, 71 years of age, weaver of this city, has stood before the same looms in the same mill, endlessly weaving cloth, but never expecting that some day she would be praised for her services.

Miss Hart, who still works every day, amid the clatter of the picker sticks in the weave shed of the Beoli Mills, was honored recently as the oldest employee here in any occupation in point of service with any firm and, after ovals and speeches, she was presented with a fine clock.

FLEES BLACKMAILERS' THREATS

Rich Man Sells Home, Hides Daughter

Jane Wilcoxson

(P. & A. Photo)

(EXCLUSIVE DISPATCH)
CHICAGO, Jan. 10.—Jane, 11-year-old daughter of Arthur Wilcoxson, wealthy Chicago coal dealer, today is in hiding at a private school following blackmail threats to her father that harm would befall her if \$4000 was not forthcoming.

After two unsuccessful weeks of attempting to capture the potential blackmailers, the parents were forced to sell their palatial home to safeguard their child's life. They themselves have taken up their abode in a hotel, the name of which is held secret.

Mr. Wilcoxson can give no reason for the extortion plot against him.

Bureau Briefs

PUBLISHED BY THE BUREAU of POWER and LIGHT — LOS ANGELES

OIL INDUSTRY

More than 11% of the world's oil comes from Los Angeles County and in perhaps no place in the United States is electricity used so greatly by an oil industry as it is in Southern California.

Motors drive the drills—operate the pumps—load the crude oil on the tankers and help to run the refining machinery.

The Bureau of Power and Light supplies current for 12,586 H. P. to the oil industry.

MOTION PICTURES

How extensive the motion picture industry of Los Angeles has become can be realized only by the fact that 85% of all the motion pictures of the United States are produced in Los Angeles County. This industry, alone, produced in 1924, \$168,000,000 worth in the metropolitan area. Electricity is the main power used in the production of Motion Pictures and the Bureau supplies the current for over 95% of all the connected motors in this business in the City, totalling 14,784 H. P.

Reliability is the factor which motion picture producers demand and get from Bureau Power.

WEARING APPAREL

Los Angeles is at present manufacturing every line of wearing apparel. Shoes, clothing, dresses, hosiery, undergarments, hats, caps, neckwear, embroidery and knitted goods are made in this city and the industry has increased to such proportions that there are now 1484 H. P. in this line using Bureau current. Besides this, in the mill manufacturing cloth including cotton, silk and woolen mills, 1443 H. P. of Bureau current is used.

The low rates and reliable power furnished by the Bureau is constantly inviting new industries to locate in Los Angeles.

BUILDING A METROPOLITAN CITY

How the Bureau of Power and Light Aids the Industrial Development of Los Angeles

WHEN the City of Los Angeles founded the Bureau of Power and Light in 1913, the original conception was to use electric resources to build up the material wealth, prosperity and happiness of its citizens.

One, and probably the primary element in this ambition, was and is, to invite industries and stabilize the City's growth. To encourage industries, reliable power at low and stable rates is fundamental. They bring security to manufacturers.

The Bureau of Power and Light has fulfilled its obligation to the founders. Moreover, every conceivable economy, engineering resource and sound management are harnessed for the fulfillment of this purpose.

The Department devised a schedule of rates which at once encouraged the establishment of such industrial enterprises as contribute to the upbuilding of a city by the gainful employment of skilled and semi-skilled labor. As a result, Los Angeles made remarkable industrial progress. Within seven years the value of local manufactured products increased from \$160,000,000 to \$1,200,000,000 annually.

It is safe to say that the Bureau of Power and Light were pioneers in the movement to build up the City's industrial resources.

The Los Angeles Bureau of Power and Light must always be a pioneer to continue this program of industrial development. Upon industry depends the general prosperity of all Los Angeles citizens.

**DEPARTMENT OF
WATER AND POWER**

When you entertain at home—
and the sumptuous feast has been
greeted with royal praise by the
laughing, pledging friends
—have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and domestic tobaccos. The most skillful blending. The most scientific package. No other cigarette made is like Camels. No finer cigarette can be made. Camels are the overwhelming choice of experienced smokers.

WHEN invited guests come in for dinner. And the festive board resounds with joyous words of friendship. When the primest feast ever served is finished—then, how welcome are those words of hospitality—"Have a Camel!"

For no other cigarette was ever so fitly smoked and served to others as Camel. Camel goodness insures a fitting climax to every perfect spread, adds of its own fragrant welcome to every home's bright occasions. Camels are made of the choicest tobaccos grown in all the world. They never tire the taste, never leave a cigarette after-taste. Fragrance and mellowness have made Camel the greatest word in all the history of smoking.

So this night, as you learn anew the joys of giving happiness to others. As after-dinner laughter rings out through all the house—know then the pleasures of smoking and serving the finest. You may be doubly sure that every good feature is rolled into Camels that anyone ever searched for in a cigarette.

Have a Camel!

Our highest wish, if you do not smoke Camel quality, is that you try one cigarette made at any of our R. J. Reynolds Tobacco Co. factories.

Indigestion causes STOMACH, KIDNEY INFLAMMATION, GASTRIC ACIDITY, NEURALGIA, MIGRAINE, RHEUMATISM AND COLIC. The greatest relief from these and other conditions is found in the use of the famous "O-M" Tablets. These are essential to health and strength. They are compounded as do the natural secretions of the body. They are absolutely harmless. They give the same laxative effect from the inside that you get from a cathartic. This alone is a natural and safe method of relieving the stomach and kidney. Offers a new and better way of life. Buy this notice with 10c to the... and W

BAKING MERGER INQUIRY PUSHED

Department of Justice Looks
Into Rumors

Continental Company Denies
Monopoly Possible

Trade Commission to Hold
Hearing February 8

(BY A. P. NIGHT WIRE)
WASHINGTON, Jan. 10.—The
Department of Justice is conduct-
ing an investigation to determine
whether there is in existence any
combination of baking companies
which is restraining trade in vio-
lation of the Federal antitrust
laws.
Despite denials of a merger of
the Continental, Ward and Gen-
eral Baking companies, Federal in-
vestigators are looking into aspects
of such a project to ascertain
whether it would be the economic ef-
fect of a consolidation of this
magnitude. The department de-
sires, through a canvass of condi-
tions in most of the larger eastern
cities, to satisfy itself whether an
actual monopoly in the baking in-
dustry is possible.

The Federal Trade Commission
already has taken a hand in the
baking situation by issuing a com-
plaint against the Continental
Company and that concern has as-
serted in its response that no
merger of monopolistic power is
possible. The commission has set
February 8 for a hearing on the
Continental complaint, in which
the Ward and General companies
also are mentioned.

When the reports of a \$400-
000,000 merger project involving
the three companies were first pub-
lished, Atty.-Gen. Sargent told
newspaper correspondents he
knew nothing about any move in
the department to determine
whether a violation of the anti-
trust laws was threatened. Per-
sistent reports that the merger
was near completion, however,
caused the department to interest
itself in the matter and an un-
der-cover examination of condi-
tions was begun.
Both the Department of Justice
and the Federal Trade Commis-
sion have satisfied themselves, of-
ficials said today, that no mer-
ger of the Continental, Ward and

ALCOHOL TINTS LEAVES RED

Noses and Foliage Alike Burnished With Roseate
Hue, Due to Spirits, Scientist Finds

(BY A. P. NIGHT WIRE)
NEW YORK, Jan. 10.—Alcohol, which long has been blamed for
coloring the human nose with a roseate tint, now is put forth by sober
scientists as the reason why leaves turn red in the autumn.
S. G. Hibben, expert of the Westinghouse Lamp Company, who
has been delving into the ef-
fects of light on plants, said to-
day that the old theory that fol-
iage changed color and dropped
off because of winter's chill touch
was erroneous.
He has discovered that chemical
reactions in the leaves of plants
at certain periods in their life cycle
cause them to reject sunlight, re-
gardless of the weather. During
the summer leaves of trees ab-
sorb 90 per cent of the sunlight,
but after a certain point, differ-
ent for each species, they begin
to absorb a smaller and smaller
proportion. It is this internal con-

General companies has been ac-
complished. Justice Department
records, however, were said to
hold the case under the heading
of a "contingent merger," which
in the future might be the basis
of Federal intervention.

CHINA SEEKS MORE FILMS FROM HERE

Delegate Asks American
Capital to Build Picture
Theaters in Orient

(BY A. P. NIGHT WIRE)
NEW YORK, Jan. 10.—The Chi-
nese government is sponsoring a
movement for wider distribution
of American motion pictures in
China and has sent a representa-
tive to this country to encourage
American capital to build more
film theaters in China.
The representative is Sum Nung
Au-Yong of Peking, a former Co-
lumbia University student, now di-
rector of the Chinese government
Bureau of Economic Information
and holder of other offices. He
is conferring with Will H. Hays,
president of the Motion Picture
Producers and Distributors of
America, and other film men. He
came here from a similar confer-
ence in Hollywood.
Mr. Sum said that there are
fewer than eighty film theaters in
all of China and these are heav-
ily patronized.
American films, Mr. Sum
said, are teaching Chinese women
to adopt western modes of dress
and furnish their homes in Amer-
ican style, as well as educating
Chinese men in western ideals.

Greek Prince in Chicago Jostled by His Admirers

(BY A. P. NIGHT WIRE)
CHICAGO, Jan. 10.—Prince
Paul of Greece today attended
memorial services for his grand-
father, the late King Constantine,
and was nearly crushed by 5000
enthusiastic Chicago Greeks who
turned out to welcome him.
Children were trampled and sev-
eral women fainted in the throng
that crowded the street outside
Holy Trinity Church, where the
services were conducted, and the
24-year-old Prince himself was se-
verely jostled before police cleared
a way for him through the lines
of admirers.

J. D. ROCKEFELLER, JR. AFFLICTED WITH COLIC

(EXCLUSIVE DISPATCH)
NEW YORK, Jan. 10.—John D.
Rockefeller, Jr., 31, with a cold
at his home, 10 West Fifty-fourth
street. He has temporarily lost
his voice and can only whisper. He
has been confined to the house for
four or five days.

ROME CONSIDERING PORTLAND'S BISHOP

by the consistorial congregation.
No decision has yet been reached
as to who will be appointed, and
probably two months will elapse
before a choice is made.

BARKIS NOT POPULAR THERE
Members of the Yarmouth Cor-
poration successfully opposed a
proposal at a meeting recently to
name one of the new roads on the
Barracks estate after Barkis, the
faithful and always "killing" wooer
of Peggotty, in Charles Dickens's
"David Copperfield."
A suggestion that a road should
be named after Steerforth, another
character in the book, was also
defeated.

One councillor described Barkis
as a "silly old pup" and a "drunk-
en old rascal with a red nose."
An alderman said it was unde-
sirable to perpetuate the name of
Steerforth as his character was by
no means desirable. Although he
was a friend of David Copperfield,
he brought disgrace on himself,
and his life ended in a bad way.
Another alderman considered
that Barkis was not a drunken
character, but an honest old car-
rier. A woman councillor urged
that Charles Dickens never went
to the barracks, and it would be
most misleading for future genera-
tions to use the name of Dickens's
characters.—(Vancouver Province.)

VICTIM TURNED LURE
While in the Hawaiian Islands,
Mark Twain was assaulted uncer-
tainly by mosquitoes. Attempting
to fool them, he had a fine net-
ting put all around his bed. In
spite of this precaution, however,
the pests managed to find their
way inside and nearly tormented
the life out of him. After careful
investigation the victim decided
that after they once got inside of
the netting the mosquitoes were
unable to find their way out. Con-
sequently, every evening
Mark would crawl inside the netting,
wait patiently as a lure until he figured
that all of the pests were inside,
then lift the covering cautiously
and sneak outside to spend the
night on the floor. Moreover, he
always declared that he was never
afterward bothered.—(Kansas City
Star.)

**Why Studebaker Rates
on Time Purchases
are Lowest**
Three years ago Studebaker utilized its vast resources to enable
any Studebaker dealer to sell cars on fair and liberal rates to
those who buy out of income
And today no car in the world offers lower
rates to the time purchaser than Studebaker
Financing rates which most competitive cars cannot ap-
proach are made possible by these 5 factors:
1 Stability of Studebaker with one hundred million
dollars of net assets, no bonded debt and no bank
loans—assurance that no Studebaker will ever be-
come an orphan.
2 Depreciation cut to a minimum by Studebaker's
"No-Yearly-Models" policy.
3 Intrinsic worth of the Unit-Built Studebakers which
makes them stay sold.
4 One-Price prices which mean that the purchaser has
an equity so substantial that he will not sacrifice it.
5 Re-sale value maintained by the popularity of Certi-
fied Studebakers sold under the famous Studebaker
Dealers' Pledge on Used Car Sales.
THESE five factors constitute the basis on
which banks of the United States gen-
erally provide credit at lowest rates for the
buyers of Studebaker cars.
This low-cost credit is placed at your dis-
posal through the Industrial Acceptance
Corporation, which is engaged exclusively in
financing the sale of cars, new and used,
through Studebaker dealers.
Before you buy any car out of income
(whether it is in the field of the Standard
Six Coach at \$1195 or the Big Six Sedan at
\$2245), find out exactly how much of your
total payment is for the car itself, and how
much for interest, insurance, brokerage, etc.
Then get the corresponding Studebaker
figures and ask yourself why you should pay
out money for the sheer blue sky of excess
financing rates.
THE STUDEBAKER CORPORATION OF AMERICA
SOUTH BEND, INDIANA

PARKS WILL BE FILM LOCATIONS

Producers to Use Natural Backgrounds

'Atmosphere' of Scenic Spots to Be Retained

Wild Animals May Become Cinema 'Actors'

(BY A. P. NIGHT WIRE)
WASHINGTON, Jan. 10.—Secretary Work and Stephen T. Mather, director of the National Park Service, have completed arrangements for bringing the nineteen national parks of the United States to those who have neither the time, the automobiles nor the money necessary to visit them.

Through co-operation with Motion Picture Producers and Distributors of America, Inc., of which Will H. Hays is president, and the Association of Motion Picture Producers of California, Inc., the 11,397 square miles of national parks have been made available, under proper restrictions, for motion-picture location.

Secretary Work believes that the parks should not be limited only to those persons who are able to visit them and his new plan, he asserts, will give the public an opportunity to see the natural beauties of America as background for appropriate motion-picture stories. These will not be limited to historical stories. Motion-picture scenario writers will now be able to take the characters in their plots to Crater Lake, or to the Lassen volcano or to Yellowstone or Yosemite for photographing.

In no way will any of the natural beauty be changed. The "atmosphere" of the park will be retained in every instance. The wild animals that inhabit the parks will be left to their own devices, but will be fair target for the motion-picture cameras, as they now are for the cameras of visitors. If the motion-picture cameras must photograph them without annoying them in any way, the animals can be enlisted as actors in the pictures.

The parks now open to motion-picture companies are Hot Springs, Ark.; Yellowstone, Sequoia, Yosemite, General Grant, Mount Rainier, Crater Lake, Wind Cave, Platt, Sully Hill, Marquette, Glacier, Rocky Mountain, Hawaii, Lassen Volcano, Mount McKinley, Grand Canyon, Lafayette and Zion.

"The motion picture is the greatest present-day teacher," said Secretary Work, "and has become an educator and source of amusement of millions. The number of visitors to the national parks and monuments during the travel year ended September 30 reached a total of 2,073,684. Hot Springs headed the list with 265,600 visitors and Rocky Mountain had 223,912. Through the motion pictures we shall be able to show all the parks to all the people as they are. Appearing as they will, as backgrounds for stories, they will be presented in the most attractive form and will do their part to help entertain and instruct the people of the world."

NEW CLASS TONIGHT
A new class in furniture upholstery opens at Lincoln Evening High School, 8224 North Broadway, this evening. The class will meet every Monday, Wednesday and Thursday evening from 7 to 9 o'clock. Further information may be had at Lincoln Evening High School, Capitol 4920. Instruction is free.

Mount Declared Freak of Art

Roosevelt Statue in Portland

TEDDY'S STATUE RIDICULED

Horse in Roosevelt Monument at Portland, Or., Called-Freak Animal by Critic

(EXCLUSIVE DISPATCH)

PORTLAND (Or.) Jan. 10.—The equestrian statue of Theodore Roosevelt in Portland is all wrong, so far as the horse is concerned, in the opinion of Oswald West, ex-Governor of Oregon and himself a noted horseman. The ex-Governor, who dabbles in art and makes a hobby of fine horses, has come forward with a vigorous attack upon the Roosevelt statue, which has been considered one of the outstanding pieces of sculpture of the country.

The statue is the work of A. Phimister Proctor and shows Roosevelt during his Rough-Rider days. To the lay eye the steed on which he is mounted is a spirited beast and entirely satisfactory. Not so to Mr. West. He says that the horse has a gait that is unknown, that the position of the feet is faulty unless, perhaps, the horse is doing a new dance step, possibly the Charleston.

FIGURE ALL RIGHT
"If Theodore Roosevelt were ever permitted to return to earth for the purpose of taking a look at this gift to the city, I am sure that he would demand protection against his friends," said Mr. West.

"I am not criticizing the figure on the horse. I am willing to leave that to Mr. Proctor and Dr. Henry W. Coe, who presented the statue to Portland. It grieves me, however, to think that Portland children are growing up with a distorted idea of the appearance of a good saddle horse."

"When you gaze on this horse and rider you are reminded of many horse photographs you have seen taken by inexperienced photographers. They are too often taken from a position in front, which produces an overlarge head and fore-quarters. It looks as though the sculptor in modeling the statue had in mind a giraffe. He surely must have used a cow as a model for the hind-quarters. The tail has the appearance of being a section of a wreath taken from some tomb."

"In front the horse is standing at ease on a good pair of legs. Above these are the shoulders of a Percheron, a neck of a stallion, although the horse is a gelding, and a small head of a hot-blooded animal."

"On a well-formed horse a perpendicular line extending upward from his elbow will strike his withers. If such line is run on this work of art, I will land well up on the horse's neck, which lacks the proper arch. The head does not set right."

MUST HAVE BALANCE
"Standing or in motion, a horse must be on his balance. A glimpse at either of the fore or hind feet and legs of a horse will tell the experienced horseman what the horse is doing with his other feet. If you cover completely the rear half of this statue, leaving the front only of the horse exposed, and ask some old horseman to tell you the position of the hind-quarters, he would answer you readily, but would never place the feet and legs where they are to be found on this horse."

"The position of the horse's hind feet and legs could come only through his being thrown upon his haunches by his rider or by descending a steep incline. However, neither horse's mouth the bit nor the position of the rider would indicate the former, and the fact that the horse is standing on the level would disprove the latter."

"Theodore Roosevelt was a horseman and knew a good mount when he saw one." West concludes. "If he ever finds out the kind of a saddle horse his friend, Dr. Coe, has given him to ride for perhaps 1000 years, he will surely object."

VALLEY BOOSTER BODY PLANS ENCINO SESSION

(LOCAL CORRESPONDENCE)
ENCINO, Jan. 10.—The enlarged board of directors of the Greater San Fernando Valley Association will have its first meeting of the year on the evening of the 15th inst. at the Encino Country Club. A banquet will be a feature of the session. The list of directors governing the organization has been very much enlarged, now embracing a list of more than 100 prominent men from various towns in the valley.

The initial meeting is expected to be one of special interest, as all work for the new year will be outlined. R. H. Glenn, editor of the San Fernando Sun, has been chosen to succeed I. H. Mallin as one of the executives of the body. Mallin recently resigned to depart with Mrs. Mallin for a six months' trip around the world.

ITALIAN MASONS IN SORE PLIGHT

Scottish Rite Headquarters Tells Story

Halls Wrecked, Books Stolen, Members Slain

Mussolini Scored as Author of Outrages

(BY A. P. NIGHT WIRE)
WASHINGTON, Jan. 10.—Under the title, "Free Masonry's Plight in Italy," the Scottish Rite headquarters, in a publication today, declared Premier Mussolini had practically destroyed the order in that country.

"Unhappy and deplorable, to say the least, is the situation of the Masonic fraternity in Italy," the article states, "and the facts in the case are almost incomprehensible to the average citizen of this country."

"Twelve or fifteen Masonic temples throughout Italy, and even the headquarters of the Supreme Council of the Scottish Rite Free Masonry in Rome, have been attacked and looted, records and equipment smashed, destroyed or carried away, riots started and even murder committed. The bitter and animosity against Masonry has increased, owing to shrewd propaganda charging it with being a political organization instead of a fraternal one, which is truly a, and whose object is charity and universal brotherhood."

The article gives a list of discriminations it says are practiced against Masons, adding that Mussolini "is the man who has created a government which, pleading poverty, agrees to liquidate its debt to the United States, beginning with small payments bearing the rate of one-eighth of 1 per cent interest."

DEGREE OF DENMARK

(BY CABLE AND ASSOCIATED PRESS)
COPENHAGEN, Jan. 10.—The government decree forbidding military and naval officers from being members of the order of Free Masons is warmly resented by the officers. They demand to know whether the decree applies to King Christian who, like his father, King Frederick, is an ardent Mason.

RIGHT OF WAY SUBJECT OF PROBABLE SUIT

(LOCAL CORRESPONDENCE)
COALINGA, Jan. 10.—A dispute between the Southern Pacific Company and the Fresno County Board of Supervisors, will probably result in litigation over a right of way for a five-mile road leading by the big Pleasant Valley stock farm near this city. The improvement of the road is expected to take care of the transportation of wool from the stock farm to the woolshed on land heretofore used for pasture.

The road in question has been maintained at county expense for many years and the County Supervisors declined to recognize what is termed a Congressional or government right of way which would give the railroad company right to use the property for additional trackage or other purposes.

ROSCOE WOMEN ELECT

(LOCAL CORRESPONDENCE)
ROSCOE, Jan. 10.—Mrs. Dora Langston has been elected president of the Roscoe Women's Club following a meeting at the clubhouse here. Mrs. Sweet, Hooker and Heath were elected vice-presidents. Mrs. J. J. Nichols, secretary; Mrs. Fred Nutch, corresponding secretary; Mrs. Harville Martin, auditor, and Mrs. Jeanette L. Lomax, federation secretary. The club has doubled its membership within the past year.

PLAN MASONIC CLUB

(LOCAL CORRESPONDENCE)
RESEDA, Jan. 10.—A large force is about here to organize a Masonic club, with permanent officers and a constitution and by-laws to be followed at a meeting at the clubhouse here. W. T. McVickar is president of the club. I. J. Tindall, temporary secretary. The new club will start with about twenty-five members. Robert Martin, D. E. Jeffery, Samuel McDonald and P. V. West are leaders in helping to form the club.

STAGE KENNEL SHOW

Birmingham Kennel Club will hold its twelfth annual bench show in the new Municipal auditorium, March 9 and 10. It is the dog classic of the South.

NEW METHODIST CHURCH

Simple Dignity Keynote of Ceremonies Incident to Corner-stone Laying at Alhambra

(LOCAL CORRESPONDENCE)
ALHAMBRA, Jan. 10.—Services of simplicity and reverence marked the laying of the corner-stone of the First Methodist Episcopal Church at East Main and Alhambra streets today when Dean Ezra A. Healy, D.D., of the University of Southern California, assisted by the pastor, Rev. Harry W. White, D.D., and prominent laymen performed the ceremony that stands out as one of the epochal milestones in the history of the denomination in Alhambra.

The services took place at 11 o'clock this morning and were witnessed by a large assemblage. Dean Healy delivered the corner-stone sermon in the temporary church auditorium, which will later serve as the educational department. At the conclusion of the address Dr. White and a group of the members took the copper box containing documents to be preserved for future generations to the platform of the new structure, where it was sealed in the huge rectangle of granite.

Dr. White read the ritual and offered the dedicatory prayer. With Dean Healy officiating, Mrs. Anna S. Winsor, the oldest living member of the church, placed the cornerstone of mortar on the corner-stone. The dean then gave the concluding prayer and Dr. White, father, J. A. White of Pasadena, pronounced the benediction. After this the stone was hoisted to its niche.

Chester A. Harding, chairman of the building committee, presented a report of the \$250,000 enterprise which has been successful.

CATTLE PLAGUE FIGHT HINDERED

Funds Inadequate to Battle Tuberculosis

Year's Appropriation Cut Half Million

One-Sixth of Nation's Stock Under Supervision

(EXCLUSIVE DISPATCH)
WASHINGTON, Jan. 10.—Government efforts to eradicate tuberculosis from the cattle herds of the United States probably will be retarded instead of accelerated during the next fiscal year unless steps are taken immediately to increase the sum set aside in the budget for the tuberculosis inspection of cattle.

Last year's allowance for inspection work, which will be used up before July 1, next, the end of the fiscal year, was \$1,600,000. In the budget for the next fiscal year this amount has been cut to \$3,000,000.

Officials of the Department of Agriculture say that unless this amount is increased it will be necessary to curtail next year's activities.

Dr. John R. Mohler, head of the Bureau of Animal Husbandry, states that as the result of work carried on in the past, slightly more than one-sixth of all the cattle in the country have been inspected. Of the 69,000,000 cattle, 11,892,000 are now under supervision. At the present time there are 72,833 accredited herds in the United States, Dr. Mohler said.

ATTENDS CONFERENCE TO SET FAIR DATES

(LOCAL CORRESPONDENCE)
POMONA, Jan. 10.—Manager Jack Afterbaugh of the Los Angeles County Fair, is in San Francisco attending the conference of the Western Fair Association where dates for the fall exposition this year will be established. The circuit schedule will be rearranged somewhat this year due to the entrance of several county fairs into the association. Delegates of the Orange, Ventura, Riverside and Kern county fairs are also attending the conference.

The Los Angeles County Fair was held the last week of September last year. The dates this season will be in the latter part of that month, Mr. Afterbaugh expects.

GAS MAINS INSTALLED

(LOCAL CORRESPONDENCE)
RESEDA, Jan. 10.—The installation of the four-inch gas main on Reseda avenue is completed to Ventura Boulevard, where a six-inch main will lead toward the east. Digging of ditches and the placing of three-inch laterals is progressing fast on the street through the Runnymede poultry colony. More than 2000 feet is being dug, each shift of work by a mechanical ditch digger.

MICHAEL FOKER

(LOCAL CORRESPONDENCE)
LANKERSHIRE, Jan. 10.—Michael Foker, father of Mrs. A. Shaw of Killam Court, who died at the home of his daughter, was buried yesterday in Forest Lawn Cemetery, Glendale. Deceased was a native of New York State, and was 73 years of age.

ARTESIA POOL HAS HIGH YIELD

Production Up to New Year 854,000 Barrels

Twin Lakes Well Produces While Being Cleaned

Ohio Oil Company to Deepen Its No. 1 to 3600

MAY REJUVENATE OIL AREA

Experiments Promise Extension of Recoverable Petroleum Content Through Artificial Pressure

The productivity of California oil fields, which has caused world-wide comment in recent years, may be vastly increased—in fact, may even be doubled, if experiments which are now being conducted are as successful as preliminary tests seem to promise.

It is well known in the petroleum industry that the recoverable content of an oil zone is much less than its actual content, frequently being not more than 25 per cent. If an oil zone actually contains 20,000,000 barrels of oil, the most effective operation methods of taking out more than perhaps 5,000,000 barrels. The remaining 15,000,000 barrels remains in the ground.

Operators, knowing of this difference between actual oil content and recoverable content of oil horizons, have long experimented with various methods for increasing the proportion of recoverable oil. The basis upon which practically all such experiments have been founded is the factor of pressure.

All oil zones have pressure of one kind or another, in some degree. Those with the greatest pressure become gusher fields. Those with little pressure are pumping fields, and in many localities good oil zones have been found which could not produce because the pressure was insufficient to force the oil laterally into the hole so that it could be pumped.

In all fields, regardless of how great the initial pressure may be, it decreases rapidly from the first vent, in the form of an oil well, is established, and this is why fields whose first wells come in at from 5000 to 10,000 barrels a day, soon reach the point where 500 to 1000 barrels is considered good initial production.

EXHAUSTIVE PRESSURE

The exhaustion of the gas which provides the pressure is the cause for this exhaustion, or supposed exhaustion of an oil zone. Actually, where the gas has escaped, there is probably three times as much oil remaining in the sand as has been estimated. The problem confronting operators is that of supplying artificially the pressure which the gas provided naturally.

In eastern oil fields, notably Pennsylvania, where the gas has long since escaped, operators have attempted to solve the problem by water pressure, or air pressure, and in some instances a combination of the two. It is understood that these experiments have met with some degree of success, at least sufficient to prove that there is hope for rejuvenation of an oil field along these lines.

The Shell Company of California is inaugurating an interesting field, which is far from an exhausted district. Dominguez has been producing for only a little more than two years, and has been developed conservatively so as to conserve the natural gas and oil. At present there are sixty-three wells producing at Dominguez, and it is inevitable that this number of wells eventually will mean the complete exhaustion of gas and force the operators to resort to the pump.

The Shell Company purposes to supplement the pressure of the natural gas before it is entirely exhausted. This involves the introduction of dry gas into the zone. Preliminary experiments along this line, with the Reyes No. 4, demonstrate that the plan is feasible. The Shell Company killed this well, which was a good producer, located in the heart of the producing area, and pumped into it about 5,000,000 cubic feet of dry gas from its absorption plant, under a pressure of about 100 pounds.

This experiment was conducted for several weeks. It demonstrated that the oil zone will absorb the gas.

IS IT PRACTICABLE?

But with this preliminary test established, the Shell has still to determine whether it is practicable to pump into the oil sand sufficient gas to effectively take the place of the gas which has escaped. It is difficult to figure just what the gas content of such a zone actually is. The Dominguez field probably has produced between 100,000,000 and 200,000,000 cubic feet of gas, and of course the problem of replacing such a volume artificially, from the present daily output, is impossible. Nevertheless it is entirely probable that the steady absorption day after day of several million cubic feet of dry gas under heavy pressure would to a considerable degree postpone the day when the natural gas of the field will be exhausted.

If the Shell is successful in this experiment it means indefinite extension of the life of the Dominguez field, or any other field where the gas-inflation method may be conducted. Naturally the system cannot be used in those fields where the natural gas already has been exhausted, for the reason that there must be some production of gas in order to put it back into the zone.

In fields which are still heavy gas producers the method gives promise of reasonable success in reducing the differential between the recoverable and actual petroleum content of a given oil zone.

UNION OIL FACTOR IN COLORADO

Reports Show Company Has Ten Producers and Sixteen Wells Drilling

Union Oil Company of California, one of the leading oil operators in the State and a recognized leader in the discovery of new oil fields, has, in the last year, become an important factor in the development of Colorado's oil fields.

Field reports disclose that the Union is drilling sixteen wells in Colorado and has ten wells listed as producers.

This is the most intensive development campaign the Union has ever carried on outside of California, according to officials of the company, being almost equal to the present field activity of the company in California.

While these reports fail to give any figures as to the cost of the drilling campaign, it is conservatively estimated by operators familiar with formation conditions in Colorado that the Union is spending millions of dollars on its Colorado operations.

Further reference to the field reports shows that the Union Oil Company in its Colorado operations has concentrated in the Wellington-Port Collins area. The present production while only 2000 barrels daily will, in all likelihood, be considerably increased, in the near future. It is expected, when wells now near the oil sands are given a production test.

The Union Oil Company has no refinery in Colorado, although it is more than likely that such an investment will be made as production warrants. At present the crude is being sold and shipped from the fields by pipeline and tank cars.

Work Started on Large Sump in Kay Copper

As a result of recent drilling operations from the 1500-foot level of the Kay Copper in Yavapai county, Arizona, such a heavy flow of water has been encountered that the management, taking time by the forelock, is preparing for any emergency that might momentarily occur, and work is now in progress in the sinking of a 10,000-gallon capacity sump, which will soon be completed, when the 100-gallon electric pump, now on the ground, will be installed. The sump pump is still handling the maximum flow under high pressure.

Upon the completion of the sump and new pump installation, headings will be carried into the new ore bodies, disclosed by diamond drilling, in record time.

The north drift on the 1500-foot level, it is stated, is looking most encouraging, having been driven a distance of twenty-five feet in massive sulphide ore—top, sides and bottom. According to advices received in Los Angeles from the mine, two large ore bodies have been located on the 1500-foot level, during the past few days, by diamond-drilling methods, thus proving the continuity and commercial value of the ore measures so extensively developed above.

NEW ISSUE.

\$400,000

PURITAN ICE COMPANY

First Mortgage 7% Sinking Fund Gold Bonds

Dated January 1, 1928.

Interest payable semi-annually, January 1st and July 1st, at the office of the Trustee, to be designated, or at the American Exchange National Bank, New York City, to be designated paying agency, without deduction for the Normal Federal Income Tax up to 2%. Principal payable at the office of the Trustee. Coupon bonds in denominations of \$1000 and \$500, negotiable as to principal only. Redeemable at the option of the Company, in whole or in part, on 30 days' published notice at 103 and interest on or before January 1st, 1928; thereafter at 102 and interest until January 1, 1930; thereafter until maturity at 101 and interest.

THE FARMERS & MERCHANTS NATIONAL BANK OF LOS ANGELES

(Will be designated as Trustee)

Exempt from the California Personal Property Tax

The following information is summarized from a letter from the President of the Company; and statements are based upon this present financing.

BUSINESS: The Company, incorporated under the laws of California in 1922, will own and operate three modern ice manufacturing and storage plants located at Guadalupe, in the Santa Maria Valley, and at Santa Barbara (both in Santa Barbara County), and at Atascadero, San Luis Obispo County, supplying ice to these districts wholesale and retail, to the Southern Pacific Company for icing passenger trains and to the Pacific Fruit Express Company for icing refrigerator cars.

PROPERTIES: The plants of the Company are practically new, having been constructed in 1922, with additional enlargements and improvements during 1923 and 1924, and now have an ice manufacturing capacity of 89,425 tons annually and storage capacity of 5000 tons. The Atascadero plant has facilities for cold storage to the extent of 160,000 cubic feet. In addition the Company owns a 16½-acre industrial tract and 240 acres of very fertile agricultural land at Guadalupe.

SECURITY: These bonds in the opinion of counsel will constitute a First Mortgage on all properties of the Company, including land, buildings and equipment now owned or hereafter to be acquired. The Santa Barbara plant in connection with its contract with the Pacific Fruit Express Company is situated on land leased from the Southern Pacific Company. The authorized issue of bonds is \$500,000, of which \$400,000 are now being offered for the purpose of acquiring new properties, for the retirement of existing obligations and for working capital, this amount representing less than a 50% loan on the appraised values of the physical properties. The remaining \$100,000 of Treasury Bonds can be issued only under very rigid restrictions provided in the trust indenture.

EARNINGS: For the past three years net earnings, available for interest, Federal taxes and depreciation, were as follows: 1923, \$34,227.95; 1924, \$57,268.02; eleven months ended November 30, 1925, \$94,116.25, as against interest requirements on the funded debt to be presently outstanding, of \$28,000 per annum. Such earnings for the eleven-month period of 1925 are equivalent to over 3.86 times interest charges for an entire year on these \$400,000 of bonds.

The above earnings do not take into consideration revenue from the new property to be acquired, nor additional revenue from present properties as a result of expenditures to be made from the proceeds of the issue. The officials of the company estimate similar earnings for 1926 will exceed \$175,000, or over six times interest requirements.

SINKING FUND: The trust indenture will provide for semi-annual payments into a sinking fund commencing January 1, 1927, calculated to reduce this issue to approximately \$120,000 prior to maturity, by purchase in the open market, or by call by lot.

MANAGEMENT: The management of the Company is in the hands of Messrs. L. H. Phillips and Paul Dalzell, who own the majority of the company's outstanding capital stock. Both men are experienced ice engineers and excellent business men. Mr. Phillips, President of the Company, during the years 1917-18-19 was the advisory engineer on refrigeration for the United States Army and in charge of the refrigeration department of the Construction Division which had control of all refrigeration in this country and France during the war. He now holds a commission of Major in the National Reserves as Advisory and Consulting Engineer on refrigeration for the government. Previous to his entering government service he was Assistant General Manager and Chief Engineer of the Arctic Ice Machine Company, having given up his position as Assistant Advisory Engineer of Swift & Company, to act in this capacity.

LEGALITY: Legalities incident to the issuance and sale of these bonds have been under the supervision of Lawrence L. Larrabee, Esq., Los Angeles, for the Company, and Messrs. Gibson, Dunn & Crutcher, Los Angeles, for the underwriters, and the bonds are offered when, as and if issued and received by us, subject to their approval opinion and to the approval of the California Corporation Commissioner.

The accounts of the Company have been audited by Messrs. Price, Waterhouse & Company, Los Angeles, and appraisals of the plants and equipment were made for us by Messrs. Smith, Emery Company, and the Pacific States Appraisal Company, both of Los Angeles.

Conditions Seen as Favorable at Original Gilbert

Conditions at the Original Gilbert at Gilbert, Nev., are considered as being most favorable, according to a Los Angeles mining man returning from an inspection of the district, who is quoted as saying that "The Original Gilbert is likely to break into high-grade at any round of shots."

In the development of the company's property the cross-cut from the main shaft to the 300-foot level is out a distance of more than forty feet, the last shift exposing a formation of blue quartz showing considerable sulphides. The first thirty feet of the cross-cut, it is said, was driven through a crushed and shattered zone of quartz, alternate streaks of talc and quartz, the quartz panning gold quite freely.

At the present time the face of the cross-cut is in white quartz which shows good gold values as work progresses, and the real ore body of the mine is looked for on the hanging wall of the big vein, or dike, and the management writes it would not be surprising if a deposit of high-grade shipping ore was disclosed almost any day.

A hoist has been purchased for the "Glory Hole" shaft, and it is believed a shipping product will be developed within twenty-five feet from the present level, this prediction being based upon the steady increase in values from the surface to the depth already attained.

Price 100 and Interest to Yield 7%.

MONDAY MORNING, JANUARY 11, 1926.—PART II. 22 PAGES.

POPULATION (By the Federal Census—(1920)—978,073 By the City Directory—(1925)—1,195,344

HERE ARE THE RECORDS

The Southern Pacific, Union Pacific and Pacific Electric have filed applications with the city for franchises which, if granted, would nullify the efforts of the city over a period of more than ten years to secure a union passenger terminal here and would set at naught the order of the State Railroad Commission, reviewed and approved by the Interstate Commerce Commission, directing the railroads to join in a union depot project in the Plaza area.

Tremendous pressure is being and will be brought to bear to secure the granting of these permits, which are for "roller-coaster" elevated roads running into the present steam and electric railroad stations. The Union Pacific and Southern Pacific plan to make permanent the arrangement whereby both use the Southern Pacific station on East Fifth street, notwithstanding that they solemnly agreed years ago that the permit then granted them for such joint use should be temporary only and was sought only because of a "disastrous" fire which slightly damaged the roof of the old Salt Lake (now Union Pacific) depot.

The City Council of Los Angeles, which must pass on these franchise applications, is on record not once but many times as urgently favoring a union station near the Plaza. Some of the formal actions taken by the Council during the past ten years follow:

On September 3, 1925, the present City Council adopted the following resolution urging the railroads to cease their opposition to a union station at the Plaza:

"Whereas, the Interstate Commerce Commission has recently handed down a decision in the matter of application of the City of Los Angeles for an order requiring the elimination of certain dangerous grade crossings and the construction of a union passenger terminal to be used by all of the steam lines entering the city and

"Whereas, this decision is the result of many years of effort on the part of Los Angeles to bring about this result; a comprehensive study having been obtained from Mr. Bion J. Argold as early as 1911, recommending the construction of a union passenger terminal in the vicinity of the Plaza; and

"Whereas, more than \$50,000 has been expended by the city, the Railroad Commission of California and civic organizations of the city in studying and investigating the important problem of eliminating the deadly grade crossings and bringing about the construction of a union passenger terminal station; and

"Whereas, every public authority to whom this problem has been submitted and every eminent engineer who has investigated the same from a public standpoint have advised in favor of a union passenger terminal station near the Plaza, beginning with the report above referred to of the eminent engineer, Mr. Bion J. Argold, followed by a similar recommendation appointed by the City Council, composed of Homer Hamlin, Franklin D. Howell and Samuel Storow; similar conclusions were arrived at by other eminent local engineers studying the same problem, including Mr. Harry Hawgood and Mr. W. K. Barnard; after this came the report of Mr. Richard Sachse, chief engineer of the Railroad Commission of the State of California, and the engineering staff of the commission, after a most thorough and painstaking investigation; later came the decision of the State Railroad Commission itself; following a series of exhaustive hearings and now the decision of the Interstate Commerce Commission after having the benefit of all these investigations and reports; together with a tremendous detail of evidence covering every phase of the situation; and

"Whereas, this Council has on several prior occasions strongly gone on record favoring the elimination of said grade crossings and the construction of a union passenger terminal station near the Plaza; and

"Whereas, the decision of the Interstate Commerce Commission fully supports the contention of the city that the public needs demand the elimination of the use of Alameda street for steam railroad purposes and the construction of a union passenger terminal station in the vicinity of the Plaza and points out that such station can be constructed and operated more economically than separate stations; and

"Whereas, the Union Pacific company is entirely without a passenger station in Los Angeles and is using the Southern Pacific station temporarily by virtue of permission granted by the city of Los Angeles; and the Santa Fe is maintaining a station constructed in 1903, which is wholly inadequate for present needs and inappropriate for a city of over a million people; and the Southern Pacific Railroad Company cannot continue to use its present station without at the same time continuing the deadly grade-crossing situation along Alameda street, particularly since its own plan for an elevated construction to the river has now been definitely rejected by both the California Railroad Commission and the Interstate Commerce Commission; and

"Whereas, the said steam lines for years have combined to fight this necessary public improvement and have pursued every technical avenue to prevent and delay this project so urgently and manifestly needed by the community and have continued such opposition for a period of more than ten years.

"Now therefore, be it resolved that this Council hereby publicly requests the executives of the Southern Pacific Railroad Company, the Union Pacific Railroad Company and the Santa Fe Railroad Company to accept the decisions of the Interstate Commerce Commission and the California Railroad Commission, to cease further opposition to this great public improvement, the need of which must now at least be manifest to everyone, and to co-operate with the city, county and State authorities to the end that this improvement may go forward and concurrently with the magnificent Civic Center project already approved by our citizens and to be located in the immediate vicinity."

Here are some of the records of previous Councils on the subject:

June 30, 1915.—The City Council unanimously adopted a resolution appointing a committee of seven to recommend plans for viaducts across the Los Angeles River as a start toward a solution of other city problems "such as subways, car routing, union terminal," etc.

May 15, 1916.—The City Council requested the State Railroad Commission to confer with the Council relative to plans for viaducts. At the same time the Council adopted a report of its Viaducts Committee which in outlining a plan for grade-crossing elimination declared that its plan "means a union terminal for Los Angeles, both passenger and freight, and it is only on this basis that the congestion and danger of railroad crossings can be avoided and minimized and the best interest of the city at large and the railroads themselves can be conserved."

June 12, 1916.—The California Railroad Commission, in a letter to the City Council, acknowledged receipt of the Council's communication asking the commission to "send their engineers to Los Angeles for the purpose of investigating as to the best location and the locating of a union station thereon."

July 3, 1916.—The California State Railroad Commission, the City Council and railroad officials met at the City Hall in conference. This was the first official meeting on the grade-crossing and union-station problem.

July 17, 1916.—The Railroad Commission notified the Council that the grade-crossing elimination and union depot investigation was under way.

June 15, 1917.—The Council received resolutions from the Central Development Association calling attention to the decision of the Supreme Court of California directing the Railroad Commission to prepare a plan for the elimination of the "entire railroad situation in Los Angeles for the purpose of establishing a union station to be used by all transcontinental railroads now entering Los Angeles, or that may hereafter enter Los Angeles and also to eliminate all unnecessary and dangerous grade crossings."

July 19, 1917.—The Council received a communication from the

GAIN SHOWN IN FEDERAL TAXES

District Collections Reach New High Mark

Goodcell Outlines Reasons for Phenomenal Rise

Income Returns Greater in Spite of Rate Slash

Federal tax collections for the calendar year of 1925 attained a new high mark in the history of Southern California. According to the annual report of Collector of Internal Revenue Goodcell, with a total of \$59,557,415.55, or \$323,544.55 more than the previous year.

Had taxes remained on the same plane as in 1924 the increase would have been \$15,632,544.55. Collections in 1925 were \$3,661,054 greater than in 1920, when the executive war-period assessments were in force and internal revenue the nation over was the greatest of all times. For comparative purposes last year's gain over 1920 was in excess of \$41,000,000.

Collector Goodcell offers a trio of reasons why revenue to the government from incomes showed its unusual increase. They are: Gain in population carrying with it an influx of new residents having assured incomes.

Greater earning power of Southern Californians.

Expansion of established industries.

Income taxes represented 80 percent of the money collected, and, though the district was facing a \$12,000,000 loss last year, due to reductions and more exemptions, the total income collections not only were greater than those of 1924, but exceeded those of 1920 by many millions.

The steady, consistent growth in population of Southern California, as reflected, according to Collector Goodcell, in the unflinching increase in number of income returns: 1920, 110,884; 1921, 185,156; 1922, 176,050; 1923, 238,682; 1924, 275,553; 1925, 365,614.

SIGNATURE CANVASSER HELD FRAUD

Accused Forger to Face Court Today as Result of Dance Campaign

Because he is declared to have been overzealous in behalf of the new dancing ordinance in Venice, Roy Spence today will appear before Justice Hall on charges of forgery. It is asserted that Spence, collecting names on an affidavit, signed more than fifty names himself and turned the petition in to the authorities after swearing to its authenticity.

A number of the names on the petition are unreadable, according to officers. A number more are plainly fictitious, "some of them even humorous, since such names as Christopher Columbus, Armour Phillips, Ida Mitropol and Xyla Drankia are to be found. Officers, as a matter of record, have checked all the names with the addresses given on the petition and are prepared to testify that no such persons live at the addresses given.

City's Future to be Outlined to Advertising Men

"What is in store for Los Angeles?" will be the general subject of the Advertising Club luncheon at the Biltmore tomorrow.

Charles F. Stern, president of the Pacific Coast Trust and Savings Bank and executive vice-president of the First National Bank, will be the guest chairman. A. G. Arnold, secretary and general manager of the Chamber of Commerce, will talk on "Harbor Development and Foreign Trade," and how the city is being advertised.

George Wilson, who will capitalize the "Red Grange" Chicago Bears next Saturday, will be an honor guest. Emerson Spier, president of the Junior Chamber of Commerce, will talk on the campaign to make the city attractive to lovers of golf and other sports. Entertainment will be supplied by Douglas Levitt of "The Student Prince."

PLAYGROUND AREA GROWS

Report for Fiscal Year Shows Seventeen New Sites; Financial Statement Pleasing

The annual report of the Playground and Recreation Department for the calendar year just ended shows a tremendous growth in land acquired, funds and attendance. The department receives 4 cents of each \$100 of city taxes, amounting to \$87,017.04, for the fiscal year ending next June 30, while cash collections from the various enterprises are estimated at \$75,000.

New sites and playground areas added to the system are seventeen in number, amounting to a total of 141 acres and being valued at \$762,545.79. These new sites are termed the Poinsettia, Queen Anne, Rodeo, Sawtelle, Harvard, Exposition No. 1, Sloan, Evergreen, Hostetter, Pecan, Central-Avenue Community, Yosemite, Verdugo, Hoover, Griffith Park, Elysian Park and Yale Playgrounds.

There are four mountain camps, located from fifty-five miles to 250 miles from the city. The three camps, Seelye, Radford and High Sierra, showed a total attendance last year of \$400, receipts \$44,819.74 and disbursements of \$47,588.40.

The four bath-houses and pools, Arroyo Seco, Exposition Park, North Broadway and Vignes street, show attendance of 73,104 males and 30,613 females, and total receipts of \$10,294.34. At the end of December the Playground Bond Fund of \$1,500,000 showed a remainder of \$769,482.24, which unfinanced purchases will reduce to \$751,534.

Many communities are acquiring small playgrounds for the neighborhood by means of acquisition districts spread over the vicinity.

CITY'S OWN "MONTE CARLO" IN ACTION

Grown-ups Find Recreation in South Park Game Facilities

SOUTH PARK—the Monte Carlo of Los Angeles, many of the wicked jingles of the coin, and featuring such games as pinocle, checkers, horse shoes and tiddie-dee-winks.

Drop by, say on a Saturday afternoon, and see the place going at full blast. A playground for grown persons. Two or three long tables set under the trees crowded with men thumbing crowds of kings, queens, jacks, et al, in pinocle games. A few more long tables burdened with checker boards, over which rows of men moon and rub their noses meditatively.

At one end of this remarkable playground is a horse shoe pitching court large enough to accommodate eight games at one time. If anyone thinks that Long Beach has a corner on the horse shoe pitching talent in these parts, let him look in on the boys making rounds of the game. Round about eight o'clock, the annual directors' meeting of the California Horse Shoe Club, the South Park Club took the Long Beach Club into camp for a count of 49 to 31. Thirty-two men participated.

At the other end of the denatured Monte Carlo a unique game, called tiddie-dee-winks, is in progress. It is declared that the game was invented at South Park. It is a sort of variation of the horse-shoe game. Round about three inches in diameter and about one-quarter of an inch thick, with a hole in the center, one side flat and the other slightly convex are thrown. The player endeavors to throw his disk into a small hole, not much larger than the disk, cut in a small wooden platform which lies on the ground. Recovery was just around the corner when the disk, cut in a small wooden platform which lies on the ground, was thrown. Recovery was just around the corner when the disk, cut in a small wooden platform which lies on the ground, was thrown.

Well, it keeps the boys off the streets, and if you can have your card games out in the open under the healthful rays of a California sun instead of in the back room of a vile-smelling pool hall at night—why not?

ACT OF MERCY ENDS IN ROMANCE

Young Evangelist Makes Woman, 60 Years of Age, Stepmother to Children She Cared for While He Watched Long Years at Sick Bed of Wife

"BAXTER—BAXTER, Virgil U. Baxter, 55; Mrs. U. Baxter, his invalid wife and their little flock of five children. It was about five years ago when Mrs. Baxter became ill. The youngest of the five children, still in the cradle. The mother was taken to a hospital. The reports of the doctors were so unpromising that the father, with no more income than usually is the lot of the struggling young evangelist, was forced to place the children in a local orphan asylum. At that time it was thought that the arrangement would be something of a temporary one, at the worst. But the mother failed to improve. Two years passed. They were long years. The day of light that lit the path came from the hope that the mother would soon be well. Recovery was just around the corner. Being religious people both the mother and the father rendered their faith to the Divine Will.

At the end of those two years, although there was little or no improvement in the condition of the mother, the Unseen Hand brought into the picture the smiling kindly face of Mrs. Elizabeth Seale, a widow, now 60 years of age. She had heard of the plight of the Baxters, the children in the orphan asylum and the efforts of the father to lighten his financial burdens by working in downtown business houses to supplement his meager earnings as an evangelist.

It was arranged that Mrs. Seale would take the children into her home and give them the care they needed, in connection with a boarding school for girls which she was conducting.

ASK FEDERAL PHONE QUIZ

People's Commissioners Move for Investigation of Bell System by Interstate Commerce Body

Charging high-handed financial manipulations, asserted to be "a menace to our country," the People's Telephone Commission today will file with the Interstate Commerce Commission a petition for a Federal investigation of Bell telephone interests and their money-handling practices. Andrus Nordskog, chairman of the People's organization, announced distinctly separate moves against the same interests will be undertaken through a reorganization of the telephone committee, which Mayor Cryer appointed, as a result of a recommendation by John R. Richards, who was vice-chairman of the Mayor's committee, which has had a more or less tempestuous career.

Representatives of California cities, from Bakersfield to San Diego, are expected to assemble at the Alexandria tomorrow evening for the Richards meeting. They are to form an organization of cities against present and anticipated high telephone charges. Richards said a concerted stand should be made against Bell interests.

TODAY'S BIBLE TEXT

"For many walk in the darkness of the cross of Christ, whose end is destruction, whose God is their belly, and whose glory is in their shame, who mind earthly things." Philippians III: 18-19.

(Continued on Page 2, Column 3)

The Lancer

By Harry Carr

G. N. BUTLER'S arrival at his marine post in San Diego will be the end of another experiment.

Another effort to make a policeman out of an army officer.

IS THERE ONE? If there is one case on record where an army man has made good as a Chief of Police job, it has escaped me.

His whole training tends to unfit him for police work.

COPIES—NOT SOLDIERS From the fact that they wear uniforms, it has been assumed that a police force is a military organization. Well, it isn't.

Perfection in a military force is rigidity; a good police force is flexible.

What makes a good policeman is discretion and common sense. What makes a good soldier is the strength of intelligent purpose with which he follows some one else's common sense.

"EXECUTIVE ABILITY" There is a great deal of rubbish about "executive ability," anyhow.

Right after the war, the newspapers were filled with advertisements from young officers wanting big jobs "where executive ability will be appreciated."

I doubt if there is any such thing.

THE BOSS WHO KNOWS An executive is a man who knows the details of a job, and has a patient understanding of men.

But I don't believe there is any abstract quality called "executive ability." The only "executive ability" that does a police chief any good is his thorough understanding of the nature of a cop; and the nature of the cop's problems.

HOW AWFUL! Not to make any important reflections. . . . But apropos of this Irving Berlin marriage. . . .

It must be terrible to face the prospect of brickbat domestic battles with a wife to whom one has written wistful waltz songs like "Remembering."

SAVED! The public utility corporations feel easier in mind, no doubt.

They have thought up a way to tear up North Broadway once more.

CHRY-BABIES It strikes me that American rubber magnates are giving a fine display of babyishness. Waiting to the incontinent moon about the British rubber corner!

All business is a battle, and they were asleep on the picket line. Why didn't they corner the rubber market themselves? They had the same chance as the British.

Conference of Local Officials Today

Two of the nation's most prohibition officers are expected to arrive in Los Angeles today for a series of conferences with local officials. The officers are from the United States Coast Guard and the United States Customs Service.

The conference is being held at the Los Angeles Convention Center. It is the first of a series of conferences between the federal and local officials.

The officers are expected to discuss the problem of rum running in the harbor and the coast. They will also discuss the plans for the speed boat fleet to guard the coast.

KHJ ARRANGES
TO JOIN TESTSTower Studio Aids Effort to
Span AtlanticHour of Silence Provided
Daily During PeriodAnother Brilliant Sunday
Concert Broadcast

BY PAUL SNEYDY

With two weeks intervening before the international radio week tests to be conducted between the main European stations and America, the tower studio of KHJ is finishing its plans for participation, having taken the lead again in co-operating with the national movement sponsored by the Radio Trades Association. During the entire course of the tests from the 24th to the 30th inst., the microphone of The Times station will be closed each evening from 8 until 9 o'clock, Pacific time.

Because of the change in the broadcast schedules of the station, sponsors of programs have agreed to delay their broadcasts one hour each night during the course of the transatlantic experiments, making the main evening program run from 9 until 11 o'clock so that enthusiasts here in the Southwest may have all possible assistance in tuning in ELO at London and the other great broadcasters of Europe, as well as the stations in Cuba, Mexico and South America, which are also taking part.

ZONES TO BE ESTABLISHED

Particular interest will also be aroused here in Southern California during one of the later days of the tests when the American continent will be divided into time zones for an hour, with each designated district to broadcast for an appointed fifteen minutes of that hour, and then remain silent, giving a chance to the other parts of the nation to log their signals. Full details of this part of the experiment are to be announced soon by the national committee.

Last night patrons of the tower studio were given another brilliant Sunday evening musical through the courtesy of the Martin Music Company, presenting an array of talented artists, featuring an instrumental trio composed of Carolyn La Feve, violinist; Bernice Neale, cellist, and Mona Martin and the Gulbransen Register Piano; Rhth Pitts, accomplished coloratura soprano soloist, and Georgi Shkultetky, well-known baritone soloist. From 8 until 10 o'clock the air from the tower studio was filled with a wide variety of entertainment, selected personally by John Martin.

MASONIC DIGEST

From 4 until 5 o'clock in the afternoon the patrons were given a different sort of program through the joint auspices of the Masonic Digest and the educational committee of the Grand Lodge, presenting the Orton Trio of instrumentalists: Judge Bledsoe in a brief address; Reynold E. Blight.

WESTERN SECRETARY
OF RELIGIOUS BODY

Col. William S. Barker
HONOR NEW
SALVATION
ARMY CHIEF

Local Branch Welcomes
Col. William Barker Who
Succeeds Col. Turner

Official welcome by the Salvation
Army of Southern California was
extended yesterday to Col. William
Barker, newly
appointed chief
secretary of the
western terri-
tory, and Mrs.
Barker. Col.
Barker has been
appointed to
succeed Col.
J. E. Turner,
formerly of San
Francisco head-
quarters, who
has been named
as divisional
commander of
the army in
South America.

Col. and Mrs. Barker were wel-
comed at the following places: at
Temple Corps, 322 West Ninth
street, 11 a.m.; during the
afternoon at 125 East Fourth
street, and in the evening, at the
same address. A welcome council
of officers of the Southern Califor-
nia district will be held this af-
ternoon when nearly 200 officers
will discuss the army program for
the new year.

The third annual session of the
Pacific Coast Theological Confer-
ence will meet for three days, the
18th, 19th and 20th inst. The pro-
gram will be presented as usual by
educators, scientists and ministers.

Prof. Charles A. Kofoid, head of
the department of zoology in the
University of California at Berke-
ley, will lecture on "Why Scientific
Men Accept Evolution" and "The
Main Factors in Evolution." Prof.
William J. Miller, geologist of the
University of California, Southern
Branch, will speak on "The Earth
Before Man." Dr. Henry A. Atkin-
son of New York, leader of a
movement for international friend-
ship, will give three addresses and
Dean Herbert L. Willett of the
University of Chicago will give five
lectures mainly on "The Apoc-
lypse of the Bible."

The conference will be held all
day Monday at the First M. E.
Church, Eighth and Hope streets,
all day Tuesday at the Wilshire-
Boulevard, Congregational Church
and all day Wednesday at the First
Presbyterian Church in Pasadena.

Police yesterday were searching
for a burglar with a brindle bull
dog on leash who directs the dog
into an apartment and then fol-
lows the canine on the pretext that
the pup broke away from him.

The first victim of this new type
of burglar is Mrs. Ray Griffith
of 1218 1-2 West First street. Ac-
cording to Mrs. Griffith's report to
police she encountered the thief
as she was returning home. She
entered a hallway the intruder came
from her bedroom. When asked
what he was doing in her room
the thief explained that his dog
ran away and he went in after
him.

The dog and his master disap-
peared in a side street and when
Mrs. Griffith investigated she dis-
covered that approximately \$300
worth of jewelry was missing.

The British government will pay
out annually more than \$15,000,
600 to 250,000 widows as pension-
ers, that number being eligible under
a new scheme just put into effect.

Inter-High School Language Test Ends

Picture shows group at blackboard competing in unique modern language tournament.

AWARDS FOR LANGUAGE TEST TODAY

Cups Will be Given to High School Teams With Best Showing

Awards will be announced today in the unique modern foreign language tournament conducted Saturday at the Belmont High School with a picked group of 115 pupils from all the city high schools participating.

Two cups will be awarded to the winning teams. One of these cups will go to the victorious team of foreign-language students from the senior high schools represented and the other to the best team from the junior high schools represented.

In addition, the boys and girls making up the two best teams will receive individual pins as a mark of merit. The pupils participating in the tournament are the leaders in the foreign language classes at the high schools where they attend. Two from each class were sent by each high school. They are a cosmopolitan group, with nearly all races and nations represented.

Left to right in the picture are: Beale Phillips, Frances Pepper, Florence Matsumoto, Robert Well, Eleanor Blackburn, Edith Huber, Nelson King, Dorothy Dean, Mary Pandel and Martha House.

OPEN-SHOP CHAMPION TO SPEAK

A. C. Rees Will be Heard at Annual Banquet of Merchants' Body

One of the outstanding speakers at the Merchants' and Manufacturers' Association annual banquet will be A. C. Rees of Salt Lake City, whose address on a somewhat similar occasion at Coronado last November, was regarded by many as a remarkable enunciation of industrial relations principles.

Mr. Rees is chairman of the American plan-open shop conference, a national organization which held its annual meeting at the Hotel Del Coronado last fall. He is manager of the Utah Associated Industries at Salt Lake City.

The Open Shop will be the subject of Mr. Rees' address to be delivered at the banquet here, which will take place in the Billmeyer Hotel on the evening of the 25th inst.

NEW QUARTERS FOR STATE DEPARTMENTS

Under recent arrangements made by the State Board of Control to provide additional office space to care for the expansion of local state branches, the State Corporation Department on March 1 will move its offices from the tenth floor to the second floor of the Sun Finance Building, which was formerly known as the Pacific Finance Building, Sixth and Olive streets. It was announced by Commissioner Daugherty. The old corporation department offices will be used to take care of an expansion in the Attorney-General's office and other departments. The Immigration and Housing Commission, the State Labor Bureau and the State Industrial Welfare Commission will be moved out of the present building and probably will be located in the same building with the State Motor Vehicle Department, on Grand avenue near West Adams street.

EXAMINATIONS ANNOUNCED

The United States Civil Service Commission announced the following open competitive examinations: Printer at government printing office, 95 cents to \$1 per hour; senior engineer and deck officer, \$2000 per annum; telegraph operator, \$1680 per annum; junior aeronautical laboratory draftsman, \$1120 to \$1680 per annum; aeronautical laboratory draftsman, \$1680 to \$2640 per annum; principal aeronautical laboratory draftsman, \$2100 to \$2760 per annum; dietitian, \$1020 to \$1680 per annum; laundress in Indian service, \$730 per annum. Further information and application blanks may be obtained from Edward Tynan, secretary of the United States Civil Service Board, at Room 618 Federal Building.

PEN POP

Typical Americans are spenders who admire things.

Why do girls leave home? Nobody likes to be at home.

Counting used to be more time to live.

Love is the quality that makes a man or woman a hero.

The Bible isn't the only book people interpret to suit themselves.

About 97 per cent of Chinese toys have now been imported.

It is perhaps just as well.

The conviction that doesn't quack doesn't signify anything.

The man who is reading a book seldom lets his tongue wag.

Once the Army was divided into regiments and things that were not.

Mr. Coolidge is an unusual man for dessert.

Evolution: Black power, blue, black.

First month of winter, wonderful! Second month, that static! Third month, turn that darned thing on!

A neighborhood is made by the presence of people who are not.

Pat people make others who look at them and say, 'Thank heaven, I'm not like that!'

The only two men in the world whose names are Adam and Eve.

The jawbone of an ass is a good thing; it has been used to death.

Still, insisting that man is an animal doesn't seem quite so bad.

We are a united people, but don't let our common sense be some other State's Senator.

Correct this sentence: 'The best man in a year' and 'haven't argued about the merits of our families'.

Many a man who claims to be making both ends meet is stretching his imagination.

Nowadays it takes a man to say whether he has a car or a good speedometer.

People worry too much about high cost of living and not about the high cost of business.

All the time would be lost this time if they did not waste more underwear than the rest of us.

The only opportunities we ever take advantage of are opportunities to do the thing.

The only thing that keeps you as uncomfortable as your foot into a tight shoe is your foot in it.

CONTENTMENT BY A. M. HOWE

Contentment grants happiness to its happy possessor.

Contentment is more vital than wealth, leisure or power.

Contentment is the product of loyalty to country and to God.

Contentment is the purpose of the Creator that happiness is in the Divine.

When mind and heart have found its throne, contentment is an invincible shield.

The Great Creator has found its throne, contentment is an invincible shield.

THE LANCER

I sing to an intrepid writer, stout-hearted, cool, a real fighter.

Each day his column calls for a new battle.

Stand bravely forth and give us your views in black and white.

You see his views in black and white.

And nine times out of ten you are right.

And who sits back at our elbow and criticizes him as we praise him?

Can send our heroic comrade to the front and roundly chide him for his lack of standing up all by his lonesome?

For fragment views that are not his own.

Boldly proclaiming them, and with fibes and baldricks and no shame to fall for it.

For banishing disposition of changing California roads to common words like 'James'.

Somewhere, beautiful they say, is an emblem of our country.

Combining history and beauty.

When Spaniards landed here, they were met by the Indians.

The Woman and Her Job

BY VALERIE WATROUS

THE TYPIST AND HER PUBLIC

One of my girls wants to know if I think there is any field for public typist in a town of more than 100,000, and the amount of capital required to start in this business. I answered that the post office business was involved. The girl's earnings had dwindled until she was unable to support her family. She had opened her own office, but after six struggling months of it and earning a few dollars, she had to close it. She continued to insist: "When she had won many of her dispirited customers she had no more partners to help her." When the work picked up, she

THE TYPIST AND HER PUBLIC

One of my girls wants to know if I think there is any field for public typist in a town of more than 100,000, and the amount of capital required to start in this business. I answered that the post office business was involved. The girl's earnings had dwindled until she was unable to support her family. She had opened her own office, but after six struggling months of it and earning a few dollars, she had to close it. She continued to insist: "When she had won many of her dispirited customers she had no more partners to help her." When the work picked up, she

[illegible]

she often worked till 3 o'clock in the morning. She arrived at her office by the first train in order to get the work out. Lacking speed, she associated herself with a very expert stenographer, who could take dictation while she was making a start.

This woman was the anxious sort. "I don't know how well I've done this work all day," she said. "I'm so busy I don't know which way to turn." She would make such statements to the courier when she had time in the evening when she should have been at work. She flattered from one thing to another, and an interruption afforded occasion for a long dissertation on how busy she was.

liner Majestic on its last voyage, have been stopping in Paris.

Mrs. Touring
Mr. and Mrs. H. E. O'Brien, who recently arrived in Paris, have been here for a few days in Berlin, stopping at the Central Hotel.

Mrs. Elbridge D. Rand (Lucile Gault) of the United States Embassy in Paris, returned to Europe in the United States liner Leviathan, accompanied by Miss Frances Rand, and Miss Lillian Rand of Los Angeles.

William Phillips, the Ambassador of the United States in Brussels, Belgium, was in Antwerp last week for the opening of an exhibition for the paintings and etchings of William Somerset American artist, who has resided there for several years. In Amer-

Prodigal Who Remained Ailing Cut Off in Will

The story of a prodigal who did not return in time to reap the fruits of his father's wealth is told in the will of a man who died in the city of Los Angeles. The man, who was a member of the Los Angeles club, died in the city of Los Angeles. The will of the man, who was a member of the Los Angeles club, died in the city of Los Angeles. The will of the man, who was a member of the Los Angeles club, died in the city of Los Angeles.

PHONE SERVICE ENLARGED

Second Unit of Equipment Added to Delaware Office to Serve Southeastern Section

Industrial and residential development in the southeast of the Los Angeles telephone exchange has necessitated the use of a second unit of central office equipment supplementary to Delaware office at Santa Fe and Saturn avenues. Delaware has been in the service only seventeen months.

LIFE WORK OF PIONEER IS ENDED

Death Halts Career of Joseph Yoch, Well Known in Orange County

(SPECIAL DISPATCH) SANTA ANA, Jan. 10.—Joseph Yoch, Orange county pioneer, one of the closest friends of Mrs. Helen Modjeska and her husband, Count Charles Bozenta Chwepowski, died here today, following the illness of a year. Yoch operated with his father and brothers in the coal mining and transportation business in St. Louis more than fifty years ago and the foundation of his fortune was gathered at that time. In 1878 Mr. Yoch came to Orange county and the next year purchased the Santa Ana Star coal mine in Santiago Canyon, near the Forest of Arden. Mrs. Modjeska's sylvan retreat, "El Estero," was purchased in 1889 and in 1895 sold the first successful well for irrigation purposes in the El Estero district, where he had purchased a ranch.

PARTY ATTIRE TOO INFORMAL

Wife Says Husband Wore Athletic Suit and Told of Missing Button

William A. Oates was a particular man—a trifle informal, true, but meticulous about details, his wife, Elizabeth Oates, submits to the Superior Court in a suit for divorce on file.

She arranged a party in their home, Mrs. Oates relates. Oates, she says, appeared, not in formal attire, but in B.V.D.'s. Instead of apologizing, he loudly complained that a button was missing, his wife related. She says she was humiliated grievously.

NEWSPAPER MAKING TOPIC FOR STUDENTS

Various phases of newspaper-making will be discussed Thursday at Board Auditorium by State Printer King, Harry S. Webster of the San Bernardino Sun-Telegram, and W. H. Kingsley of the Torrance Herald.

Richardson will be guest of honor at a luncheon after the meeting of the National Editorial Association, which will take place in the afternoon. The problems of high-school newspapers will be taken up. The occasion is the fourth annual Newspaper Day at the University of Southern California.

RUSH SHRINE TEMPLE WORK

Forces Augmented to Finish Al Malaikah Auditorium and Ballroom for Dedication Saturday

Greatly augmented forces of workmen are to start today in the final drive to complete the new \$2,500,000 Shrine Civic Auditorium and the adjoining ballroom in time for the public dedication on Saturday, the 23rd inst., it was announced yesterday by officials of Al Malaikah Temple.

Some portions of the group of buildings at Jefferson and Royal streets are virtually complete, but work must be rushed on other portions.

"We have received assurance that the buildings will be in shape to accommodate the crowd which we expect will attend the dedication," said Dave F. Smith, general chairman of the Shrine dedicatory committee.

Although the Shrine ceremonial, at which Imperial Potentate Burger of Denver will be the guest of honor, is to be held in the auditorium next Saturday night, the public dedication was set for a week later because of the desire of Shrine officials to have the buildings opened to the people of Los Angeles only after every detail of construction had been completed.

During this week most of the scenery will be placed on the mammoth stage and will be viewed by the committee by which it must be passed.

Arrangements are being worked out rapidly, according to LeRoy M. Edwards, Shrine director, for the film fashion review which is to be part of the premiere performance. Many film stars have signified their willingness to appear in costumes which have been worn in screen successes of 1925.

Tickets for the dedication will be passed next Saturday.

TOO MANY ODDS FOR HUSBAND

Complainant Charges Wife's Mother Aided in Flight By Failing Hair

Outnumbered in the marital battle was William Henry Lewis, according to his suit for divorce from Althea Lewis, now pending before the Superior Court.

Whenever he fought with his wife, Lewis complained, her mother aided and comforted Mrs. Lewis by applause and other evidences of approval of her prowess, and on one occasion even lent a hand herself by way of pulling his hair. He calls it cruelty.

OIL FIGHT BEGUN

Suit Filed in Kern for Share of Government Lease

(SPECIAL DISPATCH) BAKERSFIELD, Jan. 10.—Joseph P. Sweeney has begun suit against Charles A. Son, Transport Oil Company, United Oil Company and other defendants under the allegation that he is entitled to one-tenth interest in a government lease on valuable oil lands on Sec. 33, 18-23, in the Maricopa district, Judge H. A. Peairs has issued a temporary restraining order against the defendants prohibiting the transfer of the property involved until after the case has been settled.

BATTLESHIP GUN TESTS SCHEDULED

Final and Spectacular Practice to be Conducted at Night This Week

Spectacular pyrotechnic displays will take place of the Southern California coast this week when the battleship divisions fire night battle practice "B," the final and most stirring of all fleet elementary gunnery exercises.

Tomorrow night the practice will be fired by Battleship Division 2, including the U.S.S. Pennsylvania, U.S.S. Arizona and U.S.S. Oklahoma, less the U.S.S. Nevada, which is at Puget Sound Navy Yard. The targets, at which both the turret and broadside batteries will be fired, will be towed by the U.S.S. Tennessee.

Tomorrow night the practice will be fired by Battleship Division 3: the U.S.S. Colorado, U.S.S. Maryland and U.S.S. Tennessee, less the U.S.S. West Virginia (on route from Puget Sound.) Targets will be towed by the U.S.S. Idaho.

Wednesday night Battleship Division 4, will fire, consisting of the U.S.S. New Mexico, U.S.S. Idaho, U.S.S. California, less the U.S.S. Mississippi, (at Puget Sound Navy Yard.) Targets will be towed for Division 4 by the U.S.S. Pennsylvania.

Today the U.S.S. West Virginia, flagship of the Battleship Division 5, will sail from the Puget Sound Navy Yard for Los Angeles Harbor, having completed annual overhaul, and will arrive here Friday morning. During her overhaul period the West Virginia had installed on her upper decks four of the Navy's new five-inch anti-aircraft guns, the first ship in the fleet to be so equipped.

GOOD TIME ENDS UP IN BASTILLE

Beau Brummel Held at
Pasadena

Paid Off Train for Want of
Ticket or Fare

Tells of Gay Sessions Held
in Hollywood

By a "Times" Staff Correspondent
PASADENA, Jan. 10.—Dressed in the height of fashion and good taste, carrying a cane and evincing all the earmarks of good breeding and education, a 29-year-old Beau Brummel, yesterday was known as A. H. Boyce, 215 Colvin Parkway, Buffalo, N. Y., landed in the City Jail early morning with 14 cents in his pocket and the memory of a six weeks' round of pleasure in Hollywood.

He told the police that he had spent all his money, wired home for more without receiving an answer, and had boarded the train hoping somehow to reach Bagdad, where he said he had a friend who he hoped would help him, having shipped his baggage east by express.

"I've been all over the country," the distinguished-looking nomad told the officers, "and this is the first time I've been in an situation like this, when I couldn't play my hands on some ready money."

Officers were somewhat impressed and rather generously inclined.

When they thought to call the hotel at which Boyce said he had been stopping in Hollywood.

Following an extremely brief conversation, Boyce was locked up for the night for investigation, on suspicion of having defrauded an innkeeper.

His regular business as a salesman of an oil salesman, he told the police.

SURVEY NEW ROAD
Route Through San Joaquin Valley Being Determined

(LOCAL CORRESPONDENCE)
HANFORD, Jan. 10.—The survey of the third truck-line highway between San Francisco and Los Angeles was commenced this morning at Tracy by a party of San Joaquin Valley surveyors from the State Highway Commission.

May of this county, accompanied by his deputy, J. R. Hayes, went to Fresno yesterday, where they joined J. B. Woodson, division engineer of the State Highway Commission, and other county surveyors, who left for Tracy this morning.

The route is paved from Tracy to Dos Palos and there is a well-graded dirt road through Firebaugh to Mendota, Fresno County.

From that point some dispute has arisen between different property owners as to the routing of the road through Fresno, Kings and Kern counties and a request from the supervisors of those three counties that the State Highway Commission, at the counties' expense, appoint an engineer to locate the route, has been received.

The route will be laid out in consultation between the State Highway Commission and the county surveyors of Fresno, Kings and Kern counties.

The general sentiment is to proceed southeast from Mendota, through Trancento, San Joaquin and thence to the "west side" of Kings county, running south through the mountains to Ventura, the southern route reaching where there are several routes leading into Los Angeles.

One distinctive feature of this road, which bids fair to make it very important as a traffic carrying truck line, is that rights of way being secured there are at the request of the State Highway Commission, being taken for a width of 100 feet, or forty feet wider than the present trunk highway through the valley by way of Bakersfield and Fresno.

WANT BETTER SERVICE
Balboa Beach Asks Railroad For More Trains

(LOCAL CORRESPONDENCE)
NEWPORT BEACH, Jan. 10.—Efforts are under way by a number of coast towns to induce the Pacific Electric to increase the running time of its trains between Los Angeles and Balboa and give patrons in the area affected practically an hourly service.

Harry Welch of the Harbor Chamber and J. A. Armistead of the Huntington Beach Chamber have been working with Pacific Electric officials on a plan to send cars out of Los Angeles and Balboa at a definite time so people can fit it in their minds. Trains leaving Balboa would go at 4:25, 5:25, 6:25, 7:25, 8:25, 9:25, etc., while they would leave Los Angeles beginning at 3:15 a. m., 6:15, etc.

HAS BIGGEST WEEK
HUNTINGTON PARK, Jan. 10.—The week closing yesterday was the greatest in the history of any week in the Huntington Park Clearinghouse Association. The total sum in clearance of checks reached \$415,197.30, the biggest day of the week being Tuesday, when the clearance reached \$142,340.38. There are five banks in the association, four in this city and one in Walnut Park.

JUDGE THOMPSON SPEAKS
MONROVIA, Jan. 10.—Judge Ira B. Thompson of the Los Angeles Superior Court will be guest speaker for the January banquet of the University Club Monday night at the Astor Hotel. He will speak in behalf of the entrance of the United States into the World Court.

FAVORS PLAZA STATION

Secretary of County Planning Commission Addresses
Monthly Meeting of City Planners

(LOCAL CORRESPONDENCE)
ALHAMBRA, Jan. 10.—Hugh E. Pomeroy, secretary of the County Regional Planning Committee, believes that the Central Station is deficient as a site for a terminal station to be used by the various railway companies in Los Angeles and he favors the Plaza Union station project.

Mr. Pomeroy went on record on this question yesterday when he spoke before the monthly meeting of the Association of City Planners of Los Angeles county held at the Alhambra Athletic Club.

Mr. Pomeroy read a lengthy report of the regional committee covering various phases of the terminal situation, and stated that this body is in favor of the immediate construction of the Pacific Electric viaduct to tie in with connecting lines south and east of Los Angeles. The regional committee, as an organization, has taken no action on the Plaza Union station question, he explained.

D. W. Pontius, representing the railways interested in the Central station plan, outlined their project. No action indicating either plan was taken at the meeting.

The meeting was attended by representatives of thirty-four cities in the county.

Mrs. J. M. Lowther of Long Beach, president of the association, presided at the meeting. The visitors were welcomed by Elmer Harrington, president of the Alhambra Planning Commission. Address were given by George H. Barnes, head of the American Real Estate Association, and by Prof. Ralph Bell of Los Angeles.

**WEALTHY YOUTH TO
APPEAR IN COURT**

PASADENA MAN HELD FOR
DRIVING IN RECKLESS
MANNER

By a "Times" Staff Correspondent
PASADENA, Jan. 10.—Stephen Kerckhoff, 24-year-old son of one of Pasadena's wealthiest and most prominent families, is scheduled to appear in Police Court tomorrow morning on charges of intoxication and reckless driving. If found guilty he can expect to face a sentence of thirty days on the city's "rock."

Police Judge Frank Dunham has established an iron-clad penalty of \$300 fine and thirty days in the City Jail for all persons found guilty of intoxication and reckless driving, and has gained a reputation for severe impartiality in meting out sentences of this kind.

Kerckhoff, who lives at 2370 North Holliston avenue, is now at liberty on \$250 bail, furnished by his father, who is a well-known automobile accident in which, it is charged, he was involved.

All arrangements were made to the City Jail for minor offenses are sent to the Arroyo Seco work camp.

**COMPLICATIONS ARISE
IN CAMP ESTATE CASE**

(LOCAL CORRESPONDENCE)
HANFORD, Jan. 10.—Content over the valuable estate of Lee Camp, whom a jury found murdered by three persons now confined in the County Jail here, has reached a very complicated stage.

Judge K. Van Zante, of the Superior Court, has signed an order for the release of Lee Camp, sister of Lee Camp, to the latter, who is now in the County Jail, on the ground that the latter is a person of good character and is not a danger to the community.

The order was requested by Clark Clement, the first attorney employed by Mrs. King, in his suit for \$25,000, which he claims is due him from Mrs. Camp as attorney in her several suits. The Camp estate matter up to the time he was dismissed and Preston Higley of Oakland was appointed her counsel.

**BANKERS OF KINGS
COUNTY ORGANIZE**

(LOCAL CORRESPONDENCE)
CORCORAN, Jan. 10.—A committee of Kings county bankers will be organized by J. W. Guilberson, president of the Farmers National Bank of this city to take up with a committee of State bankers various problems affecting banking and agricultural interests.

At a recent conference of appraisers of the Federal Land Bank in San Francisco, which conference he was invited to attend, Mr. Guilberson delivered an address on "Loan Values of Agricultural Lands," following which an extended discussion of the subject occurred.

One of the strong features of Mr. Guilberson's talk was the need of closer relations between the banks and agricultural interests.

At the close of the session the conference appointed him to organize a committee of Kings county bankers to consider the matter of closer relations.

**OWENSMOUTH POSTAL
RECEIPTS SHOW GAIN**

(LOCAL CORRESPONDENCE)
OWENSMOUTH, Jan. 10.—According to report of Postmaster Frank Fessler, the sale of stamps and postage stamps for 1925 amounted to \$864,111, as compared to \$667,770 for 1924. This again, it is stated, entitles the Owensmouth postoffice to entry in the second class on July 1, next.

This Christmas season the postoffice did third month business better than in Christmas, 1924. Mr. Fessler reports. The year's money-order business totaled more than \$25,000.

BUILD MAUSOLEUM
By a "Times" Staff Correspondent
SANTA MONICA, Jan. 10.—The Santa Monica Commission has approved the preliminary plans for a \$120,000 mausoleum to be erected by the Santa Monica Cemetery. The plans were submitted by G. H. Sanders, mausoleum engineer and builder, yesterday. Sanders purchased a site 75x100 feet, and the building program will run around \$300,000 during the year.

JOINT RECEPTION
POMONA, Jan. 10.—Joint reception for Commander Allen Bixby for the American Legion, and State President Anne Chapline of the American Legion Auxiliary will be held in the Legion home here the evening of the 15th inst. at 6:30. Details for the dinner reception have been completed by committees of the post and auxiliary.

Delegations of the Legion posts of Pomona, Glendora, Covina, Claremont, Upland, Ontario and Chino will attend.

FOUR GENERATIONS CELEBRATE GREATEST TOURIST'S SEASON

Hold Reception at Golden Wedding

Pasadena Hotels Report Large Increase Over Last
Year With Many More Guests Coming

By a "Times" Staff Correspondent
PASADENA, Jan. 10.—Predictions of railroad officials, hotel men, the Chamber of Commerce and other agencies that Pasadena can justly anticipate the greatest winter tourist season it has enjoyed in many years, are fast becoming present realities. Already the number of winter visitors at the leading hotels is 25 per cent greater than at this time last year, and every indication points to a still greater fulfillment of advance expectations, when the winter season reaches its peak in February and March.

A survey of five of the city's leading hotels, the Huntington, Raymond, Maryland, Green and Vista Del Arroyo, shows a registration of 434 guests here as winter visitors, although two of the hotels have been open only two weeks. This is a 10 per cent increase over last year at this time, still these figures tell only a small part of the story, for a large percentage of Pasadena's winter population takes houses for the winter months.

France, Germany, England, Australia, Canada, New Zealand, Hawaii, South America and every State in the Union, with the exception of seven are already represented here by guests at the five local hotels mentioned. The large number of guests came from the four American cities of population, New York, Illinois, Pennsylvania and Ohio.

The peak of the winter season, this city can verily expect to be the mecca for a large part of metropolitan America, for past figures indicate that the hotel population at that time is about twice what it is at the end of the first in January.

**CHURCH TO BUILD
APARTMENT HOUSE**

BAPTIST DENOMINATION IS
GRANTED BUILDING PERMIT
AT ALHAMBRA

(LOCAL CORRESPONDENCE)
ALHAMBRA, Jan. 10.—The California Baptist Convention, a religious corporation, has been issued a building permit for the construction of a new four-story apartment building at 700 Irving street, and the alteration of a dwelling at the same location, the entire construction to cost \$25,000. Work will be started immediately by J. T. Smoot, contractor.

It was announced that the Baptist plan to make many additional improvements on their local property and that the filling of the permit today is the first step in the construction of a big project. Other apartment units will be built, each to cost \$25,000. All the apartments will be grouped in such a way as to form an octagon, with walks, flowers and shrubbery in the center.

The new buildings are designed especially to accommodate retired missionaries and ministers of the Baptist denomination. Norman F. Adams of Los Angeles is the architect for the corporation.

**COMMUNITY PLANS
GREAT MALE CHORUS**

(LOCAL CORRESPONDENCE)
HUNTINGTON PARK, Jan. 10.—What is planned to become the greatest male musical organization in the Los Angeles section of Southern California is being organized here, to be known as the Men's Community Chorus. W. L. Stuckey, president of the Huntington Park city school district, having been elected president; "Pop" Sullivan, of the Huntington Park Union High School, secretary; John Wertz, prominent local tenor, director, and Mrs. Ellison, accompanist, are the nucleus of the chorus.

It is the purpose of the organization to have a membership of the hundreds. Some of the members from Bell, Maywood, Glendora, Claremont, San Gabriel, San Dimas, San Jose, San Bernardino and Catalina.

The lower floor of the latter building will contain six separately mounted selamographs in a special room, and also rooms for photographic work, radio, storage and supplies. The chorus will be organized in co-operation with the Carnegie Institution of Washington, beginning to take definite form.

The lower floor of the latter building will contain six separately mounted selamographs in a special room, and also rooms for photographic work, radio, storage and supplies. The chorus will be organized in co-operation with the Carnegie Institution of Washington, beginning to take definite form.

**SOUSA POPULAR IN
KINGS COUNTY CITY**

(LOCAL CORRESPONDENCE)
HANFORD, Jan. 10.—A musical boom seems to have struck this county of Kings, or else the "march king," Sousa, is exceedingly popular here. Sousa's band is to give a concert at the new municipal auditorium here next Tuesday afternoon, and tickets, therefore are practically all sold, largely to school-children in different towns, who bought them by the hundreds. Some of the schools in neighboring towns have announced they will close for Tuesday afternoon so the pupils can attend the concert.

Hanford Retail Bureau, of which nearly all the merchants of this city are members, has announced that Sousa's band will be in the city at 4:30 o'clock p. m. on the day of the concert to give all employees, as well as themselves, an opportunity to attend. The Sousa concert was promoted by the Hanford City Trustees as a big event for the new municipal auditorium, and its full seating capacity of 2400 is evidently going to be taxed to the utmost.

**MAKE GREAT GAIN
IN AGRICULTURE**

(EXCLUSIVE DISPATCH)
BAKERSFIELD, Jan. 10.—Kern county has more than 28,000 acres of productive fruits and thirty-six varieties of grapes, according to the agrarian acreage report of Whit C. Barber, county horticultural commissioner.

This year the county shipped more than eight times the amount of produce raised during 1921 and more than double the amount of grapes in 1923. Crops totaled more than 6000 carloads last year, while crop shipments in 1921 were only 750 carloads.

**SAYS HUSBAND WAS
FORTUNE HUNTER**

SANTA ANA WOMAN SUES FOR
PROPERTY LOST AFTER
HER MARRIAGE

(LOCAL CORRESPONDENCE)
SANTA ANA, Jan. 10.—Branding her deceased husband as a fortune hunter, whose plans were foiled by death, Mrs. Sarah M. Santa Ana, 48-year-old Santa Ana woman, residing at 81 Spurgeon street, today had instituted court proceedings to recover a \$25,000 estate which she claims her husband, Lewis Pond, who was 45 years of age when he died a few weeks ago, secured from her by a Superior Court action.

Mrs. Pond asks judgment for \$25,000, the value of her husband's estate, and also asks the court to declare that the separate estate of her husband was in reality her separate property held in trust by him as her agent.

In substance, Mrs. Pond charges: That her husband being 58 years of age when she was 31, when they married in 1919, estimated that he would outlive her many years.

Thereafter she entered into a marriage with her with the deliberate plan of procuring her property to hold as his own separate property after her death. That because of her implicit trust and confidence in him and her own inexperience with business, she was able to gradually convert her property into his own name, without her suspecting it.

Pond had no wealth of his own when they married, his widow stated. She admits that she paid for the marriage license.

**SEEK TO AMPLIFY
ROUTE OF BUS LINE**

(LOCAL CORRESPONDENCE)
LANKERSHIM, Jan. 10.—C. H. Kline and Earl White are conferring with the traffic department of the Pacific Electric in an effort to induce the company to take in more territory with the bus line, which is proposed to be put on between Lankershim and Burbank as soon as formal permission is granted by the State Railroad Commission. Instead of operating in a direct line between the two towns a more circuitous route to take in the upper part of Lankershim will be requested.

NEW HIGHWAY
Road From Vernon to Long Beach to Be Boulevard

(LOCAL CORRESPONDENCE)
VERNON, Jan. 10.—Another big piece of street work has been started in this city which has been considered one of the most important between Vernon and Long Beach. The Los Angeles Paving Company began work of paving Vernon avenue and Pacific Boulevard from the intersection of the two streets to the intersection of the two streets, which will take care of the traffic from Santa Fe avenue, along Vernon and then Pacific, as far as Fruitland Road. The width will be ninety-five feet from curb to curb, this conforming with Pacific Boulevard in Huntington Park.

The improvement, when finished, which will require about three months, will continue south through Huntington Park, Walnut Park, South Gate, Lynwood, Compton and on into American avenue in Long Beach.

In the clearing of the way for this improvement, it was found necessary to remove an old landmark, a pepper tree, which was located on the corner of the intersection of the two streets.

The city is also contemplating many other street-paving propositions, including the widening of the street from the intersection of the two streets, Boyle avenue, Fifty-fifth street, and others. The street-building program may run around \$300,000 during the year.

JOINT RECEPTION
POMONA, Jan. 10.—Joint reception for Commander Allen Bixby for the American Legion, and State President Anne Chapline of the American Legion Auxiliary will be held in the Legion home here the evening of the 15th inst. at 6:30. Details for the dinner reception have been completed by committees of the post and auxiliary.

Delegations of the Legion posts of Pomona, Glendora, Covina, Claremont, Upland, Ontario and Chino will attend.

GREATEST TOURIST'S SEASON

Pasadena Hotels Report Large Increase Over Last
Year With Many More Guests Coming

By a "Times" Staff Correspondent
PASADENA, Jan. 10.—Predictions of railroad officials, hotel men, the Chamber of Commerce and other agencies that Pasadena can justly anticipate the greatest winter tourist season it has enjoyed in many years, are fast becoming present realities. Already the number of winter visitors at the leading hotels is 25 per cent greater than at this time last year, and every indication points to a still greater fulfillment of advance expectations, when the winter season reaches its peak in February and March.

**Work is Begun
on Pay-to-Play
Golfing Course**

(LOCAL CORRESPONDENCE)
CANOGA, Jan. 10.—Sixteen teams of mules and more than forty workmen are at work grading 131 acres on Ventura Boulevard near El Caballero Country Club for the St. Andrew's Corporation. The new pay-to-play golfing course, the first standard course of its kind that is to be built in the city of Los Angeles, according to Norman Macbeth, president of the corporation.

Large grading crews will push the improvement of the new course during the next six weeks, and Macbeth, who is personally supervising the construction of the course, has set July 1 as the date of its formal opening.

The eighteen-hole course is of standard size with a total length of 6000 yards and will have the finest grass fairways and greens. Mr. Macbeth explained in telling of preparations now under way.

As soon as grading operations are well started, construction will begin on a picturesque clubhouse overlooking the course and the entire San Fernando Valley.

Officers of the new pay-to-play golf corporation are: Norman Macbeth, president; J. C. Brady, secretary, and R. L. Woodrough, Harold G. Farwell, J. E. Eastman and Thomas Budy, directors.

**TO USE PIGEONS IN
FAR NORTH SURVEY**

BIRDS TO BE TAKEN TO ALASKA BY AIR MEN FROM
SAN DIEGO

(EXCLUSIVE DISPATCH)
SAN DIEGO, Jan. 10.—In connection with the aerial survey of the Alaskan peninsula by North Island naval aviators, thirty pigeons will be bred at the Alaskan station here for use in the Alaska region, according to C. F. Young, president of the San Diego Racing Pigeon Club. A portable loft will be constructed at the air station and placed on the vessel selected to accompany the proposed expedition.

Young pigeons, bred from 300 and 400-mile birds, will be taken to cope with the cooler elements, will be used in the project. The young pigeons will be taken to the portable loft which will be placed alongside the land plane hangar and will be taken to the loft by air at rate faster than 4 miles a minute.

ENLARGE FACILITIES
Buildings at Caltech Soon Ready
For Students

By a "Times" Staff Correspondent
PASADENA, Jan. 10.—Two new buildings at the California Institute of Technology are rapidly nearing completion. The steam plant, equipped with two large Sterling 250-horsepower steam engines, which is being built as an annex to the Gates Chemical Laboratory, is so nearly finished that it is expected to be in operation by the beginning of the next week. The lower floor of the latter building will contain six separately mounted selamographs in a special room, and also rooms for photographic work, radio, storage and supplies. The chorus will be organized in co-operation with the Carnegie Institution of Washington, beginning to take definite form.

**FAD TO INCLUDE
BOYS OF ALL AGES**

By a "Times" Staff Correspondent
VENICE, Jan. 10.—Boy district boys of all ages from 5 to 90 are to become yachting spectators and hold annual model yacht racing regatta in Venice canal, according to a plan launched by Ira H. Beddoe of this city. His "model" sailormen and designers.

Beddoe is interesting the Sea Scouts and other organizations in the plan to hold any of the races for the diminutive craft, similar to the Westlake Park races held in Los Angeles, in which he has been an enthusiastic participant. Beddoe is arranging to show boys how to build and sail their own model yachts, and as well as schoolboys confess to a strong lure of the sea when it comes to competing for the prizes that will be offered.

TELLS OF CHINA
CLAREMONT, Jan. 10.—"Chinese and the Western Attitude Toward War as Expressed in Literature" is the title of an address to be given by Dr. Lewis N. Chase of the University of California extension division in Holmes Hall, the 14th inst. at 8:30 p. m. Dr. Chase has just returned after a five years' residence in China, where he has gained a sympathetic understanding of the Chinese people and has a fund of first-hand information to impart.

Greater Than Ever

ONE of the last published expressions of Frank A. Munsey was a statement regarding the advertising lineage in The New York Sun during the month of November.

That statement was so characteristic, so clear and concise an expression of the ideals controlling The Sun that it is reprinted in full below.

To the perpetuation of those ideals the present management of The Sun is unreservedly committed and pledges itself to their completest fulfillment.

It is for the same reasons expressed by Mr. Munsey that The Sun continued in December to add to its record another month of leadership, thus completing a period of six consecutive months in each of which it has published a greater volume of advertising than any other New York evening newspaper.

The Sun published in December 1,571,906 agate lines of total advertising—leading the second New York evening newspaper by 132,656 lines.

The Sun's advertising gain in December—a gain of 223,710 lines—was larger than the combined gains of all the other New York evening newspapers.

During the last six months of 1925 The Sun published 7,693,384 lines of total advertising—leading the second New York evening newspaper by 388,004 lines.

The Sun had a larger gain during the last six months of 1925 than all the other New York evening newspapers combined.

Month after month and year after year National Advertisers use far more space in The Sun than in any other New York evening newspaper.

Reprinted from The Sun of December 4, 1925

Character, Substance, Courage, Quality.

THAT'S the reason for The Sun's position in New York as a great newspaper—a home newspaper for home reading.

That's the reason why The Sun leads all other evening newspapers in New York, both in the quality and quantity of its advertising.

That's the reason why The Sun carried in November 1,541,154 lines of advertising, leading all other evening newspapers in New York by 58,664 lines.

That's the reason why The Sun for five months straight has carried more advertising than any other New York evening newspaper.

That's the reason why The Sun has made a larger gain in the last five months than all the other New York evening newspapers put together.

That's the reason why The Sun's gain in advertising for November this year is 334,424 lines over November last year.

That's the reason why in the last five months The Sun has gained more in advertising in the six working days of the week than any other newspaper in New York, morning or evening, has gained.

The Sun is building right, building with full appreciation of a newspaper's responsibility to the community

The Sun

280 Broadway

New York

The terms of Mr. Munsey's will make it possible for The Sun to assure its readers that they will continue to enjoy a clean newspaper of interest, political independence, honesty and fearlessness. The organization with which Mr. Munsey brought The Sun to its present commanding position remains intact. That organization will bend every effort to make The Sun a newspaper worthy of its readers and its late owner.—Editorial in The Sun, December 31, 1925.

RADIO SERMON EXPOUNDS THE GOSPEL OF STUDIO KHJ

Dr. Palmer Heralds Its Message of Kindness, Happiness, Joy as World Inspiration

Calling the New Testament "the joy-book of literature," Dr. Gordon Palmer, pastor of the South Park Baptist Church, preaching from The Times broadcasting station yesterday declared that "Christians cannot rightly represent Christianity unless they maintain the attitude of joy." Preaching on the subject "The Gospel of KHJ," Dr. Palmer spoke in part as follows:

"KHJ. The Times, Los Angeles, California, is a world benefactor. Its message, its music, its cheer, its challenge, its instruction and its inspiration have brought untold blessings to the world. These symbols, KHJ, were given to The Times by the radio authorities. Little did they think that the heart of the gospel was to be found therein. KHJ, The Times, stands for the highest, noblest and best in life, and KHJ has a gospel. The gospel is the 'good news'—the glad tidings. It is 'God's Spell'—God's word to the world. We have a gospel of medicine, a gospel of business, a gospel of science, but the gospel of KHJ is included in the gospel of Jesus.

"K FOR KINDNESS
"K stands for kindness. It is a virtue needing re-emphasis to-day. The athlete of force has survived the World War, the 'wolf to power' still exists. The philosophy of the brute is found in our midst. Man believes in the 'survival of the fittest' and he counts the finer virtues of life to the winds. Force makes egotists; the egotist is the embodiment of selfishness personified. Selfishness blinds men to their universal social relations. They ignore the other man. Whatever your religion, if it does not make you kind, you do not possess Christianity nor any of its derivatives; you live the philosophy of the jungle. Kindness leads to tolerance; tolerance with those who differ from us. No man has all the truth. Man has a right to think and believe, but no one has the moral right to force, by persecution or inquisition, his religion upon his fellows. While we may differ, we can at least be gentlemen.

"The next element in the Gospel of KHJ is happiness. Happiness is a universal quest. It is the holy grail which men seek. Happiness is not a continuous state because it is largely subject to physical conditions, sensory and experiences. Sunshine is not continuous—the shadows fall, the clouds appear, night comes. Life was never intended to be a monotonous ride through a desert. There are mountains and valleys, glorious vistas and dense fogs; there is heat and cold, and through the journey great periods of happiness are enjoyed. Happiness, like signposts, mark these periods of exaltation. Happiness is elusive. It cannot be bought. You cannot catch happiness. It escapes the grasping hand as if it were some will-o'-the-wisp, but folks will still chase happiness. Not even your Rollos, your Pierces-Arrows—no, not even your Fords—are fast enough to catch it. The pleasure-seeker is not a happy man—he never can be. He lives on the things that fail to satisfy. He feeds upon the husks which leave a constant craving for more and more.

"SECRET OF JOY
"Get outside of yourself, change your thought currents. Invest your thoughts in the world of high ideals, splendid aspirations, magnificent companionships and you will draw dividends of happiness pretty regularly. There is no happiness in doing wrong. Happiness comes, not so much by wishing and hoping, as by living, being and doing. You want heaven here and hereafter; then today make a little heaven for someone else.

"The secret of happiness is found in being in conscious union with the Omnipotent God. This union gives courage and convinces one that man is not the plaything of chance or the puppet of fate. To know God in Christ restores the soul to normalcy and furnishes an incentive to minister, rather than to be ministered unto. Happiness comes by doing the will of God and living God-ward.

"In this gospel of KHJ there is a permanent element. It is joy. Christianity is the radiant religion. We make such a poor show of living it—it should never be lived as we live it. Our master came to bring joy to the needy world. He came to take away nothing, but that which was harmful, debasing and destructive. He came to add to life: to give life more abundance and this abundant life is a life of joy, peace, happiness and love. He multiplies blessing upon blessing. He takes away only your sin. We need not feel that God is the joy-bells ringing in the heart.

"This is the beauty of the religion of Jesus Christ. It is essentially a religion of music. Angels sang at His birth; angels ministered to Him through temptation. They brought music and strength to Him in the garden; they were at His resurrection. The New Testament is the world's great joy-book. It begins with the glad tidings of great joy and ends with a procession of Hallelujah choruses. There is no minor note in Christianity. It is all in the major key; it is the music of hope, love, life, on the ascending scale. It is like the sky-lark, the higher he flies, the louder he sings and the sweeter the song. We do not rightly represent Christianity unless we do not keep the joyful attitude. The solemn countenance comes not by chance. Acid thoughts sour the face but a joyful heart makes a cheerful countenance. The secret of this joy is found in oneness with God. Let the spirit hold sway in your lives; companion with the Master and make Him Lord of your life and there will be a joy unspeakable, full of glory, which fades not away. Christianity is not law—it is life. It is not rules—it is love. It is not a feast—it is a feast. It is not a load—it is a lift. It is not sadness—it is sunlight. It is not death—it is deliverance. It is not sorrow—it is a song. It is not gloom—it is gladness. It is not defeat—it is triumph.

SERMON RECOUNTS
WISDOM OF CHRIST
"Christ the Criterion of Character." is the subject of a sermon

preached at the Magnolia Park Christian Church yesterday by Dr. Bruce Brown, pastor of the South Park Christian Church. Dr. Brown said in part:

"The miracle of the centuries is the wisdom of Christ. Living far back in an age of superstition, far beyond all that we call scientific knowledge, He never made a mistake. He spoke on every question that is of interest to us today, but every statement He made stands unchallenged. He made the world as we know it today. He did not come to teach such little things as astronomy. His teachings cover the whole domain of moral procedure and not one new virtue has been added in 2000 years. Any man will be made better by beginning to do any thing that He commanded and any man will suffer in the end by doing any act that He condemned. His system of ethics is the only one that has stood the test of centuries."

PLEADS FOR TOLERANCE IN REALM OF THOUGHT

Rev. E. Burdette Backus, pastor of the First Unitarian Church, preached yesterday on "Tolerance." He said in part:

"Hendrick Van Loon, author of the 'Story of Mankind,' has written a delightful new book which carries a lesson much needed in these days. It is called 'Tolerance,' the story of man's struggle for the right to think. Tolerance is defined in the encyclopedia as 'allowance of freedom of action or judgment to other people, the patient and unprejudiced endurance of dissent from one's own or the generally received course or view.' Primitive man was exceedingly intolerant. He had to be because unless the tribe kept itself a unit by demanding uniformity it could not survive. There no longer exists the same necessity for conformity but the impulse to demand it is still strong upon us. The story of the emancipation of the human mind is the account of our effort to throw off the hang-over of this primitive trait. The testimony of history is clear. Van Loon, that it has only been where the spirit of tolerance existed that human life flourished into full beauty. Ancient Greece is the supreme example. In two centuries she produced ten of the greatest geniuses the world has known. The reason lay largely in the tolerance of her citizens. Today the idea of tolerance commands the loyalty of the best minds of the world, but it always being defeated by the sinister forces of ignorance and selfish interests that are arrayed against it. The right to think and speak freely is the most precious we possess."

BIDS MEN BUILD FOR FUTURE LIFE

Rev. William C. Iselt, pastor of Amended Chapel, preached yesterday on "Has God Stopped Work?" He spoke in part as follows:

"In reading my Bible the other day I was impressed with a question which some people in a crowd asked Jesus one day over at Capernaum. 'What must we do that we may work the works of God?' It was that phrase, 'The works of God,' which impressed me. What are the works of God? Did these people think they could do the works of God? Can we? That last sitting beside you in the front seat of the car, watching every move you make in driving the car. Some day he will say to you, 'Father, may I drive the car?' He wants to do your work. The question of the text, 'The works of God,' the work of Jesus in feeding the multitude when He only had five loaves and two fish. They watched Him do it, and they ate of the bread, then they wanted to do something like it. Something unusual, something interesting. God creates. Animals do not; they just take what is within reach and consume it. They do not sow grain or plan their harvest; they just eat what is put in the trough. Some of these animals are the human kind; they do not know they do what they are told to do. God preserves or saves. He consumes everything. There is no waste. But a flock of sheep trample down all the good grass seeking some that looks better. They get the water all muddy and foul when they go to drink. God helps. Animals do not; they look out for themselves. They are selfish. So the answer of Jesus was 'This is the work of God, that ye believe in Him whom He hath sent.' But no answer at all some will say. But it was. All who are not like God are self-centered. The one who believes in Jesus changes his center. Just like the world had to do when the Copernican theory was proved, and the sun was known to be the center and not the earth. Of course we believe this, contrary to all our senses, even against our reason, like we do religion. We take it by faith, for none of us ever sat in the sun to see if it stands still while the earth moves. To believe in Jesus is to plan our work to last through all time. We do not work for the things that perish, but for the things that last. Most people are working for a life that is all-important thing, and they work for themselves. They believe the center of our solar system has changed from the sun to the earth. They do not believe the center of our life has changed. They are not making the plans with which they live. They are going to see if the things we are giving our time and energy to will carry right on, with us at the helm, after we are through. When we are gone, they stand, his place, then civilization has been built into civilization. If you destroy his character, his standing, his place, then civilization is destroyed. The wave of crime and lawlessness that is sweeping over the land is but a by-product of the modernist's challenge of his integrity."

BATTLE OVER DEITY.
DR. KENYON'S TOPIC
Preaching at Bethel Temple on "The Deity of Christ," Rev. E. W. Kenyon said in part:

PASTOR POINTS OUT
"GATEWAYS TO GOD"
Dr. H. C. Culbertson, pastor of the Mesa Congregational Church,

preached yesterday on "Gateways to God." Excerpts from the sermon follow:

"Religion profits greatly from the study of psychology and the application of our newly discovered mental laws to the interpretation of religious experience. Conversion, for example, is seen to be a perfectly normal and natural process, similar to the change which occurs when a spendthrift becomes a miser, or a miser becomes a spendthrift, or a woman-hater falls in love. By a shifting of the center of consciousness from an unworthy set of motives to a nobler set of emotions and purposes, a man's heart and life may be changed until it almost seems as if a miracle had been wrought instead of the natural operation of one of God's laws. All Christians do not have this sudden transforming experience. The children of some Christian parents are 'born new' before they even begin their physical life in this world, and while they may be far from perfect, their religious experience is that of gradual growth and development. Most wonderful of all, however, is that experience described in the Bible as 'being filled with the Spirit.' This occurs when a Christian of either of the types just mentioned passes from a life of passive, mediocre goodness to a life of spiritual power and effective service. This also is a natural psychological experience, having its parallel in the business world in the cases of men who suddenly, by a kind of illumination and the breaking down of mental obstacles, leap from plodding mediocrity to commercial genius and financial achievement, or in the intellectual world in the cases of students whose task of learning or laboratory investigation suddenly ceases to be drudgery and becomes a joy and a passionate quest. Ambitious Christians seek this experience of illumination and power in their religious life, and we are learning to test the genuineness of their re-

ceiving it, not by their emotions, but by the fruits of the Spirit of their growing, Christlike character, and in the increasing effectiveness of their loving service toward all their fellowmen."

BEWARE OF WOLVES

WARNS DR. WYCKOFF

Dr. Rufus J. Wyckoff, pastor of the Melrose Avenue Methodist Church, preached yesterday on "Wolves and Thistles." He said in part:

"A man is judged by what he is and does. Character is the result of the fruits of the Spirit of their growing, Christlike character, and in the increasing effectiveness of their loving service toward all their fellowmen."

CLOG-DANCING CLASS OPEN

The health education department of the Y.W.C.A. is offering a course of lessons in clog dancing, in answer to requests from teachers and physical directors. The course will be held every Wednesday at 7:15 p.m. in the Y.W.C.A. gymnasium.

Woman Dies at Hospital From Poison Potion

Mrs. Carrie M. Rowe, 32 years of age, 415 South Grand avenue, died in the Receiving Hospital yesterday morning an hour after she swallowed poison with suicidal intent, according to a report made by Detective Lieutenant Craig.

The woman was taken violently ill a few minutes later and Dr. W. A. Strole summoned. She was removed to the Emergency Hospital but died while receiving medical attention.

A report on file at the detective bureau states Mrs. Rowe was separated from her husband, Harry B. Rowe, of 510 South Fremont street, February 12, last. Her father resides in the northern part of the state. The body was removed to the Walter Blue undertaking parlor.

UPON TO LEAVE FOR VENEZUELA OIL AREA

(EXCLUSIVE DISPATCH)
MARICOPA, Jan. 10.—W. C. Up-ton of the California Oil Company on Maricopa Flat is leaving for the oil fields in Venezuela, there to be employed by the Shell Oil Company as a driller. Mr. Up-ton had charge of the California oil interests in this field for four years and has been identified with the production of oil in the West Side fields for the last seventeen years.

MYERS CHARGES FRAME-UP

Former Policeman to Present Alibi in Robbery Trial Today Before Justice Wood

Charging that his arrest on robbery charges was a frame-up resulting from his prosecution of liquor-law violators, Charles T. Myers, former police officer, today will appear before Justice Wood to offer testimony in his defense.

Several witnesses will be called, among them Mrs. Hazel Myers, wife of the defendant, who will testify that she was with her husband at the time several of the robberies were committed, and other police officers, who will testify that Myers was in another place than that where the robberies were committed.

The prosecution testimony showed that five men were held up and robbed of watches and cash between November 28 and December 8, last. They party identified Myers as the man who had robbed them and pawnbrokers who had pawned their watches in that the man who had pawned them resembled the man who had pawned them.

The District Attorney's office will not be the party to any frame-up. If this man is guilty we want to prosecute him to the limit but in case of any discrepancy we want to find out all about it," said Fitts yesterday.

Returned Chancos Bush is representing Myers.

LANDIS TO UNVEIL TABLET

Baseball Chief Will Dedicate Memorial to War Dead at Wrigley Field Friday

Judge Keneas Mountain Landis, high commissioner of baseball, will deliver the dedication address at the new Wrigley Field, Forty-first and South Park avenue, next Friday afternoon when the bronze memorial tablet is unveiled, according to A. B. Waddingham, State Executive Committee member of the American Legion.

The tablet, which will be placed on the high tower of the ball park, will be dedicated in honor of the World War veterans who gave their lives for their country. It will be the first time in the history of this nation that a ball park has been so dedicated. The American Legion will sponsor the ceremony. Judge Landis came to the Pacific Coast to attend the dedication.

Charles L. Bogue, retiring commander of the Los Angeles City Interpol Council of the American Legion, will act as chairman of the ceremonies Friday. Allen B. Bixby, State commander of the Legion, will conduct the dedication. The ceremony will be held at 3:30 p.m.

Following the dedication an old-timey ball game will be played. A team to be led by "Pop" Frank Dillon, and the rival outfit from Los Angeles will play. Wheeler, both well-known veterans in baseball circles.

No admission will be charged for the ceremonies, which start at 3:30 p.m.

YOUNGSTERS Veteran Espie PLANT TREES AT BURBANK

Man's Funeral Set Tomorrow

Funeral services for James F. Jones, veteran Southern Pacific Railroad employee, whose death occurred Saturday at White Memorial Hospital after a brief illness, will be conducted from the Walter B. Jones undertaking parlors, 1217 West Washington street, tomorrow at 2 p.m.

Mr. Jones, who served the Southern Pacific for 25 years in various capacities, was a native of Kentucky. He was 61 years of age. Taken ill four weeks ago, he was admitted to the hospital on January 4, last. He was a member of the American Legion, and was a member of the Veterans of Foreign Wars.

His wife, Mrs. Martha R. Jones, has a step-son, Harold W. Lynn.

Radio Children Feature of Ceremonies Sponsored by Reforestation Body

Radio kiddies, led by Queen Titania and the Sandman of KJL, featured yesterday's tree-planting activities in the hills near Burbank, when more than 250 trees were planted along University avenue parkway as the radio youngsters' contribution to the national reforestation program sponsored by the American Reforestation Association.

The ceremony was held at the intersection of University and Broadway, where the new City Hall is being built. The ceremony was held at the intersection of University and Broadway, where the new City Hall is being built. The ceremony was held at the intersection of University and Broadway, where the new City Hall is being built.

APPROVE PETITION CHECKED

City Clerk Dominguez has finished checking the signatures of the Venice Sunday dancing petition and will make his report to the Board of Supervisors tomorrow. The petition, which was signed by 1,100 persons, asks for the repeal of the ordinance which prohibits dancing on the streets of Venice.

The Board of Supervisors will hold a public hearing on the petition tomorrow. The hearing will be held at the Board of Supervisors' chambers, 200 North Main street.

ROBERT TAKES TROUBLES

John V. Lucero reported to police yesterday that a burglar entered his home Saturday night while he slept and robbed him of \$10.00 and a pair of shoes. The burglar arrived at the Lucero home, 1114 Kearney street, they found the burglar with the pocket turned inside out.

The police are looking for the burglar. The burglar is described as a white male, about 30 years of age, 5 feet 10 inches tall, 160 pounds, dark hair, blue eyes, and a mustache.

CIVIL SERVICE CLASS STARTS

A new class to prepare students for civil service examinations for the City of Los Angeles will hold its first session tonight at the Lincoln Evening High School, 1814 North Broadway. The class will be held at the Lincoln Evening High School, 1814 North Broadway. The class will be held at the Lincoln Evening High School, 1814 North Broadway.

MANY TO TAKE BAR TEST

More than 100 applications have been made to Division Two of the Second District Court of Appeal for the bar examination. The bar examination will be held at the Lincoln Evening High School, 1814 North Broadway. The bar examination will be held at the Lincoln Evening High School, 1814 North Broadway.

ANGELENO INJURED IN FRAT FIGHT

Police Advance Theory in Case of Student Kessler, Hurt at Philadelphia

Philadelphia police, who for the past week have been endeavoring to pierce the veil of reticence placed about the circumstances of the injury to Charles Nicholas Kessler, Jr., 19-year-old Los Angeles student at the University of Pennsylvania, are conducting their investigation along the lines of a fraternity house "party" at which there were considerable drinking and women guests, according to reports received last night.

Kessler's injuries, according to the investigating officers, were received in a fight, which is said to have taken place. It is believed that Kessler was injured when struck by a small table, said to have been thrown during the affair.

At the boy's home at 876 Victoria avenue, the mother stated yesterday that she has received no details of the affair.

Mrs. Kessler said yesterday word received by wire from the boy's father, who has been in attendance at the Polytechnic Hospital in Philadelphia for the past week, indicated that the youth's condition is satisfactory and that his chances for recovery are good.

Surgeons found the spinal cord bruised, necessitating an immediate operation, which is said to have been successful, Mrs. Kessler declared.

Kessler, who is a Junior at the University and a member of a foreign-born women employed in fraternity, there, was taken into custody.

Philadelphia has nearly 75,000 university and a number of foreign-born women employed in fraternity, there, was taken into custody.

Philadelphia has nearly 75,000 university and a number of foreign-born women employed in fraternity, there, was taken into custody.

Philadelphia has nearly 75,000 university and a number of foreign-born women employed in fraternity, there, was taken into custody.

Business Booming, Says Bebe Daniels

How he was taken there and by whom have been shrouded in mystery, and no light has been shed upon the events that led up to his injury by either the youth or fraternity brothers, who are said to have been sworn to secrecy. It has been learned that the party was given within a stone's throw of the campus.

According to the mother, young Kessler had returned only a few days before from a visit with an uncle in Maryland. The uncle was at first summoned to the boy's bedside, remaining there until the arrival of the father from Los Angeles.

Young Kessler was unconscious for several days after his injury and the mother believes his injury has influenced his unwillingness to talk of the affair.

The Finance Committee today will consider the application of R. A. Allen for the renewal of the lease of city property at 1019 South Broadway at a monthly rental of \$250.

Philadelphia has nearly 75,000 university and a number of foreign-born women employed in fraternity, there, was taken into custody.

Tickets for Wampas Frolic in High Favor

Admissions for Ball and Frolic of Publicity Men of Films Selling Fast

Reports from Wampas headquarters and other ticket-selling quarters of the 1926 Wampas Frolic and Ball indicate that the publicity men's annual event will be sold out in the near future.

For the first time in the history of these affairs, every seat is reserved. The ball will be held in the new Shrine Civic Auditorium Theater, with a capacity of 6400 seats.

As announced, the program will commence with a show, staged by Gus Grauman, on the world's largest stage, 20 per cent bigger than that of the New York Hippodrome.

After two and a half hours of this entertainment, there will be dancing. Thursday evening, February 4, the night of the Wampas Frolic, already has been set aside by all motion picture studios as a closed night, when no production will be permitted.

FIGUEROA PLAN UP TODAY

The City Council today probably will adopt the plan of the City Engineer for the \$4,000,000 North Figueroa extension. On Friday the Council, as a committee of the whole, voted, 11 to 2, in favor of the engineering department plan.

Following the final announcement at Angelus Temple yesterday of the farewell reception to Aimee Semple McPherson, who leaves for a three month tour of the Holy Land, Paul Rader, Chicago evangelist, received assurances that at least 5000 persons expect to be present at the Santa Fe station at noon today.

R. D. Meyers, 1915 West Twentieth street, will preach a "good-speed" sermon from the platform of the train, which will be followed by a personal message of farewell by Mrs. McPherson. Hymns will be sung by the Angelus Temple choir of 800 voices to music by the Angelus Temple band.

A special police escort will be provided Mrs. McPherson by Cleveland Heath, head of the police traffic bureau.
